welcome back industry. it's so nice. And tonight, we have a couple of guests. So we're gonna go into the increase intricacies of that as well as her life growing UPS steeped in this, and how it led to her being an intergenerational contactee by being related to Betty and Barney hill

03:07

of abduction, fame, really, really the first abduction case, truly chronicled. So once again, some really interesting conversation tonight. Archbishop James cloud, he is an exorcist in the Order of St. Michael the archangel. He is also author of walking with ghosts in exorcist memoir of the paranormal. Welcome back. James cloud, how are you doing? I'm doing well. How are you doing? I'm doing fantastic man. Like I said, other than my gout issue going on? I don't know. I don't know if there's a patron saint of gout. But as a Catholic, I should look it up. Because I should know it. You know, I mean, we got to St. Blaise, he's the patron saint of sore throat suffers. Hey, there you go. So we got we got one for everything.

06:14

I feel sorry for the patron saint of hemorrhoids. That's right.

06:21

Well, let's start breaking this down real quick father, because this is this is a thick topic and one that

06:29

if you're a Bible study, or if you've gone through, read the Bible, not just excerpts, things like that, you probably you may or may not have run across Daniel, depending on which version of the Bible you're reading.

06:44

There, it's interesting, but let's start breaking down how Russia plays into the end time prophecies of the Bible from Daniel, Ezekiel, the a lot of people say the Book of Revelations is an end time prophecy. But I really choose to see that as like a letter to a people of faith, and what to do moving forward and what you're going to face than an actual like, prophecy because prophecy by definition, like you got to have an out.

 07:20

Otherwise, Nostradamus is a prophet.

 07:24

But he's not because all he does is say, Oh, this is gonna happen. But there is no way out. And with profits, it's the fact of there's always a pivot point, there's always a point where you can choose to decide to do the opposite. And do what's right. And if you don't, God said, this horrible thing is going to happen. So you might want to listen.

 07:45

And I think that that's important to distinguish between prophecy and prognostication.

 07:55

Definitely, definitely, you know,

 07:58

when you're dealing with prophecy, so

 08:03

a lot of times that probably 99% of the prophecies are exactly what you said, you know, there's a way out. If this doesn't happen, then this is going to occur.

 08:16

Usually repentance and changing, you know, changing their hearts back to Christ in the Old Testament, back to, to God. So

 08:27

except for, so I have a different take on Revelation. Okay.

 08:34  
So there's cuz I've studied in times for years, and

 08:41  
an interesting point that a lot of people make just with like, you know, that scary number 6x.  
Six?

 08:51  
Well, it goes

 08:54  
in the early church, they understood it as neuron Caesar, or neuro seats. These are narrow.  
Yeah. However,

 09:02  
that was written after Nero's death. So it didn't mean

 09:09  
Nero at the time. That's why it says he was is not and will be again. Yeah. Yeah. The fact that  
the Caesar to come after? Yeah, yep. And that the characteristics will be like Nero to look for a  
man like that. And that's exactly what Antichrist will be. But going back to Russia,

 09:37  
Russia. Back in the old prophecies, it was called the land of Magog. So the Muskogee Ian's  
basically

 09:47  
lived there. And so when the prophecies in in the sequel 38 and 39 talking about more of God  
may God

 09:55

10:55  
that the contemporaries of the day know exactly

10:00  
Who is ICA was talking about? You know, fast forward about 3000 years. And the title of Magog kind of disappeared into the mists of history. But we know that the region from ancient history occupies Russia,

10:21  
also interestingly parts of Ukraine

10:25  
So, and when you read, prophecy of dog may God that the war that would occur

10:33  
Gog is of the Mobilia. God is of May God and the leader of makeup. So, technically right now, with the Gog and Magog is Russia.

10:50  
However, you know, the leadership could change at some point and someone else will be gone. But as it stands currently,

11:00  
is God

11:02  
Gog? And, yes, in that prophecy that talks about I'll just put it in modern terms, because they can, the listeners can look at Ezekiel 38 and 39. And see some of the older names, plus some names that are still current.

11:22  
You'll have Russia, Iran, Iraq, Syria,

 11:29  
Gaza,

 11:33  
Libya, Ethiopia.

 11:37  
And

 11:39  
Turkey, I believe it is, they will all form a coalition

 11:46  
to come against Israel. And that's the actual war of Gog and Mekhong. According to Ezekiel, yeah. However, a lot of rabbis right now are saying that what's going on in Ukraine is the beginning of Gog and make

 12:04  
the war predicted in 38 and 39 of the sequel.

 12:09  
So it's something to think about and about

 12:14  
a year ago,

 12:16  
I

 12:19  
not a snake to me in the past and I just sneak as he as he tells me so I've learned that's just

got a spoke to me in the past, and I just speak as he, as he tells me, so I've learned that's just the best way to go. And rise or fall. You know, that's just what I do. And so, but it's, but when he tells me something, it's never been wrong. So that's the good thing. But as the human side of me goes all your just your little zealot, you're just imagining things, you're just this, you just that, but I've learned just to speak it. And if I look like a fool, I'm a fool. Sure. But about a year ago, God told me that the war of Gog and may God would begin within two years.

 13:01  
It

 13:03  
and you have said numerous times on our show,

 13:09  
that we are in the midst, but the beginnings of intent, and that's not to say like, you know, 700 Club style, or anything like, you know, where it's like to send your money now. Yeah, no, sure your place? No, but it's the fact of things are aligning. There is there is there is an overwhelming father

 13:36  
movement in the world.

 13:39  
That's pulling in all directions. Sure.

 13:44  
Well, and then you have

 13:47  
good old Klaus Schwab, the World Economic Forum.

 13:52  
And all of the political leaders of the West falling in line

13:57

with the great reset. You know, the slogan build back better sure that that's actually a World Economic Forum slogan. And every Western leader in this last election, used it as their slogan or in the slogan speeches, because it's about resetting things to a global economy, a single digital currency

14:24

resetting the idea of nation states, so that it's more of a global citizen rather than, say, a US citizen. Sure. Sure.

14:38

You know, I've I'm listening to both sides. When

14:44

foreign relations experts talk, and

14:48

no one side is saying, you know, Russia, bad, Ukraine, good, that kind of stuff. The other side is saying, well, Russia and China are the are the only two big powers

15:00

warehouses left that are more focused on nation state rather than a global community. Yeah. And it necessarily has to be brought under control or

15:13

made to submit at some level.

15:17

Yeah. So that is that is something that is definitely been hypothesized by guests on this show there has definitely been,

15:25

excuse me.

15:29

I have even posited the fact of

15:33

Do not be surprised if you see

15:36

basically what people akin to Project Blue Beam enacted, which was to basically falsify a second coming to unify people, and then double whammy with an invasion. But this dude is going to be the one that can save us all.

15:58

Yeah, and you know, there's a lot of plays that can be had with this. But I specifically want to read real quick, the end of Ezekiel 38,

16:10

which is actively a declaration from the Sovereign Lord. In my zeal and fiery wrath, I declare that at the time there shall be a great earthquake in the land of Israel, the fish in the sea, the birds in the sky, the beasts of the field, every creature that moves along the ground, and all the people on the face of the earth will tremble at my presence. The Mountains will be overturned, the cliffs will crumble, and every wall will fall to the ground. I will summon a sword against God, on on all my mountains, declares the Sovereign Lord. Every man's sword will be against his brother, I will execute judgment on him with plague and bloodshed. I will pour down torrents of rain, hailstones and burning sulfur on him, and on his troops, and the many nations with him. And so I will show my greatness and my holiness and I will make myself known in the sight of many nations, they will know that I am the Lord.

17:15

That's a powerful statement.

17:18

And the fact of Oh, yeah, you You think you're the one in control. Let me show you what's gonna happen. And yet, literal fire brimstone, dogs and cats living together mass hysteria.

17:33

You know, it's all right there. So for those that take it, literally for those that take it interpretively?

17:43

What are we looking at? As far as what's happening right now? Where are we in that path? Of the end of Ezekiel 38?

17:55

We're close. We're close. We're not there yet.

18:01

You know, when that really strikes out, because

18:06

during the

18:08

War of dog, and may God, you're going to see

18:13

Russia and that Arab Federation I spoke about go against Israel.

18:21

Already right now Israel is kind of getting on Russia's crap list, if you will. Oh, yeah. Because?

18:30

Oh, yeah. But it's getting hotter with the Ukraine. Yep. And

18:36

from what I understand, Russia, transferred a lot of troops down to Syria, pretty recently. And so you've got a lot of those folks down in there.

18:49

And, you know, that aligns perfectly with

18:53

what, you know, Ezekiel is talking about there. And so

19:00

it's one of those things that makes you

19:03

pause, reconsider a little bit.

19:06

Because, you know, you can't, it's just a rule of thumb, you can't trust mass media to give you the whole story. Sure. It'll be slanted one way or the other, depending on which program you're listening to.

19:21

But

19:24

you know, there's always more going on behind the scenes, and I look for those deep currents. You know, most people get stuck on the fly like an ocean, you know, they're stuck on the waves that the wind is blowing at the top, but yet, the currents underneath are actually moving the oceans around the globe. And that's what I look for. And any

19:49

number modeling a

19:51

series of events, what have you and looking at the long game of what you know, folks might be

20:00

aiming for. And so, yeah, it chose me that way. You know, it's, it's close, there's things going on that

20:13

well folks need to be aware of.

20:16

And honestly,

20:19

if

20:21

folks don't change the path they're on,

20:24

all the prophecies are gonna come true.

20:28

That's really that's your out. You know, that's the,

20:33

the key there. But, again, a lot of people don't want to

20:39

align themselves with God, they would,

 20:42  
unfortunately, most are gonna align themselves with this one world government. Yeah.

 20:50  
And, of course, that means

 20:54  
taking the mark on their

 20:56  
forehead or right hand, that means submitting to

 21:05  
really a

 21:08  
socialist dictatorship

 21:11  
because that's really the structure

 21:14  
of like,

 21:16  
Daniel's vision, like you were talking about? Well,

 21:21  
before we get into that real quick, I actively want to read a previous part of

21:28

Ezekiel 38, which, which I think is where a lot of people are pulling this from especially the unwalled villages reference, because we have to remember the actual like we learned a couple of weeks ago, folks, when all this started with historian Richard B. Spence, the actual name Ukraine just means like, frontline land,

21:52

it was not an actual settled area. It was this loosely associated area that was in constant flux, depending on the ranges of the countries that surrounded it.

22:04

So the fact that it's so the fact that they are referred to, in this as, or at least people are interpreting this, as being them, I will invade a land of unwalled villages, I will attack a peaceful and unsuspecting people, all of them living without walls, and without gates and bars. I will plunder and loot and turn my hand against the resettled ruins. And the people gathered from the nation's rich and livestock and goods, living at the center of the land, Shiva, and didn't. And the merchants of Tarshish and all her villages will say to you, you have come to plunder. Have you gathered your hordes to loot to carry off silver and gold to take away livestock goods and seize much plunder?

22:54

Yeah, certainly seems like almost exactly like Russia, what Russia is doing right now?

23:00

Oh, absolutely. And like we said, with Richard B. Spence, this is something that intelligence analysts could have seen Coming. Coming. You know?

23:11

He did, honestly. Yeah. Yeah. So So why allow it? Why allow it to happen? You know, why, why even still be sitting next to complacent? We've placed some we play some sanctions on Russia. Sure, that's it. You know, even the UN has yet to fully Buck up. I mean, yeah, hats off to the Ukraine, man, because they have come in full force, and protecting their motherland, at least what they have as a motherland. But that's just the Sydney the Sydney case of like, national identity, because like our, like our professor of history, said the other day, the Ukrainian people don't necessarily have a, quote, national history. They were a border front.

 23:58

Yeah, they were they were an ever changing border land between the Middle East and the lands to the north Russia and the lands to the East, India, and all that, you know, so interesting, interesting, but let's start getting into the prophecy of Daniel real quick. Okay. Well, the,

 24:23

to give a little background and so folks know, Daniel had a

 24:28

dream or a vision one time and he accurately predicted all of the major world empires that would come to rise within

 24:41

in and around Israel. Because you got to remember Israel is God's time peace always has been always will be.

 24:50

But that being said,

 24:54

the last. So this

 24:58

statue of Nebuchadnezzar

 25:00

that Daniel saw,

 25:02

it was divided into different metals from the head being gold, which meant, you know, the current Babylonian Empire, down to the 10 toes, which was iron mixed with clay.

25:15

Now the idea of iron and clay being formed together to form, you know, a 10 Toad base of a statue is that iron and clay don't mix. Yeah, you know, they it might hold its form for a short time. But then because they don't mix they they fracture and break apart.

25:37

Well, this.

25:40

Interestingly enough,

25:42

the UN has divided the world into 10 regions.

25:48

The UN really is the final world government. It's just, you know, it's like the

25:57

the cross eyed, redheaded cousin or something right now, as far as

26:03

I'm redhead.

26:10

Nothing against redheads nothing against my dad was redhead too. But

26:19

eventually, there will come a point something is going to precipitate the world. Throwing all authority

26:33

26:35  
and taking all authority from the UN.

26:37  
You're already seeing some of that. It along different nations, third world nations and whatnot.  
But

26:47  
and then honestly, under the Biden administration, you're seeing, you know, America is a follower right now. Not a leader, the Kenyan Germany of all places, for God's sakes, was more of a leader than and France, France. Yeah. More of a leader.

27:09  
And Biden just kind of with America just said, Okay, we'll do what you do. Instead of you know, traditionally America has been the lead. The America has been the

27:21  
spearhead, if you will, yes, yes.

27:26  
On this, were more like the part of the luggage rack, just going along with everyone else.

27:34  
But that, that shows you the temperature of America right now. And the who the people have elected. And I have to assume that's what the people want is globalism,

27:51  
America's preeminence to decrease the kind of meld into a global community, you know, skipping rope and slapping each other on the button or something, I don't know. But

28:08  
people have weird things, you know, or they're in the Star Trek, they think, you know, it'll be the Federation or something, but

28:20

the way it's going, like I was saying, earlier, the UN has divided the, the world into 10 regions, there's your 10 toes,

28:31

and then trying to form them into one

28:34

with all of the different cultural, racial, religious differences. It'll never stick. You know, there, you might have the leaders, big smiles, you know, shaking hands, but I guarantee it, the bigger the smile, the bigger the nice.

28:53

And so

28:56

at the end, it does come

28:59

at the end, we but keep in mind through it all. Israel and Jerusalem in particular,

29:09

is a stumbling block. It is a heavy stone burden. Yeah, to the rest of the nations. And it is, and, you know, it is and it was supposed to be

29:24

because this is another thing too. You know, a lot of theologians

29:31

kind of subscribe to the idea that the church replaced Israel. And that, you know, Israel basically ceased as a nation after the spacious destruction of Jerusalem in 70. Ad. That's not the case. Because you read in in, I believe, it's Corinthians. St. Paul is talking about how we're

beholding a mystery. How for a time Israel be punished and set

 30:00

aerated from their land, but at the end, they'll come back as a nation in order for all of humanity, who trust in Christ to be saved.

 30:14

So, and that happened in 1948. So that was the final click on the countdown to whatever timeframe God has for that. When Israel became a nation again,

 30:32

that that started as a countdown to the end.

 30:38

And of course, in that same year, the UN was founded.

 30:42

And so,

 30:44

you know, you don't have to have a broad imagination.

 30:49

If you're a student of prophecy in the Scriptures to see exactly what's going.

 30:58

You know, and the punishment of Israel was immense, I mean, scattered as a people for almost 2000 years. Yeah.

 31:07

And then the Holocaust. But the Holocaust, served the purpose of reinstating the nation of Israel

israel.

 31:16  
So, there's,

 31:21  
you know, as a theologian, you have to look at the broader

 31:25  
pieces at play on the chessboard? Absolutely. You know, yeah, the Holocaust was terrible. You know,

 31:33  
if a person could go back in time and murder Hitler as a child, sure.

 31:39  
You know, snuff that little sucker out, but

 31:44  
you can't do that. So

 31:47  
everything works in accordance with God's plan, even the demons, you know, and even, you know, you're you were talking earlier about the abductions and whatnot and experiencers. Yeah, I was looking at it for I'm an experiencer. My whole family was an experiencer. Yeah.

 32:07  
And generationally,

 32:10  
going back. And so in when I

 32:13  
walked around holding hands with this golden

 32:17  
alien thing.

 32:20  
They serve said, We served the great king. And they're not like the other ones. But

 32:27  
you know, we served the great king. Yeah. And as an adult, I look back and go, Oh, I know who that is.

 32:35  
And so even they're subjected to God's will and plan. And I wouldn't be too shocked to either a Project Blue Beam or some false flag attack, you know, aliens are attacking us and killing us, blah, blah, blah. You know, they've been preparing

 32:56  
all over the world with their alien invasion movies and stuff for years. And the the reality is they they're the watchers. They're the sons of God. The Benihana Elohim of Genesis six that crossbred with humans. They're the divine counsel, out of Psalm 81, I believe it is.

 33:20  
So

 33:22  
all of everything that happens,

 33:26  
good, bad, ugly, or otherwise

33:30

further God's plan, even Lucifer and the demons have to have only a certain leash that they can do and they do more on certain people. Because those people are given longer leash to do something. And for those of you who may doubt this, let's let's take a hop back to the good old book a job

33:55

where God's district kickin it with his angels up in heaven talking about like, things are so fantastic. Things are so great that even this dude who didn't even a Jew loves me

34:10

Look at him. Look at him. He can't stop singing my praises poof up pop Satan in the middle of the heavenly court like hey, how's it going guys? Job Cool Cool, man if I toy with them yeah, you can do anything but kill him

34:28

do anything but kill him? Oh, the first it was you could do anything but touch your hair on his head. Yeah, which is why he went after his cattle and his children and his wife and his land and

34:43

so yeah, like even even the demons are a part of the heavenly plan as a whole. When you look at the forest and the trees of the situation

34:56

and you know, it's pretty rare to hear

35:00

A man of the cloth who wears a collar, say that Archbishop,

35:05

it Do you think that that is your experience? As what is it that gives you that unique lens to the Scripture?

35:18

Well, I you know, honestly,

35:21

I love the scriptures.

35:23

I love my Jesus Christ with every fiber of my being and I would happily die for. I have no qualms about that in the slightest.

35:36

Someone put her to put a gun to my head and said, renounce Christ. Pull the trigger. It's all good. Do it.

35:46

But I think the things I've went through in my life to

35:51

from being an abductee at four,

35:55

then having, you know, special insights, and stuff after that.

36:02

Being able to see here, yeah, spiritual entities and whatnot.

36:07

The shadow people growing up, me finally getting in to the position as an exorcist and taking the battle back to them and protecting those that can't protect themselves.

-----

 36:23

Just also, I love history. I love science. I love to quantum mechanics, quantum physics. I love to understand the broader things. And, you know, I often smile to myself when you know, these atheistic or at least agnostic scientists are claiming, you know, about DMT, the God particle and this and that and how everything's held together by an unknown power and blah, blah. I just smile.

 36:54

Scripture says in him we move and live and have our being

 36:59

no surprise or secret. It's God. Yeah, yeah, he might use a special particle that you haven't discovered yet. But that's him. Yeah, you know, well,

 37:10

go ahead.

 37:12

Oh, I was just saying, you know, it all goes to prove to me

 37:18

that

 37:21

God is active in the lives of mankind. In the life of mankind, he's he is active, everything in creation, whether it be an interdimensional being, whether it be which dimensions actually, to me, prove the spiritual world. We just call it a different name in the scientific community versus that the logical, we say It's spiritual. They say it's dimensional. There is no difference. It's the same thing. Yeah. These sons of God that interbred, and were up and, you know, came down from heaven in Genesis six, the divine counsel in Psalm 81.

 38:05

They had DNA, how could they reproduce? If they didn't have DNA? And it wasn't like, in Genesis six, they just went,

38:14

well go ahead and genetically modify our specimens. No, they had sex with human women and produced an offspring, which from a

38:24

purely scientific

38:27

perspective, you have to have close enough DNA to reproduce.

38:31

Women cat can't reproduce naturally. But they did.

38:37

So there's, there's things that most theologians

38:44

either don't see, don't want to see. Or it contradicts what their favorite teacher taught them. Instead of just

38:54

look, taking a step back, looking at the Broad panorama, and going, Oh, that fits with that, that fits with that, that fits into that.

39:05

That's how I've, I've come to this particular lens. You know, I sit back, and I observed, I listened. And I watch and

39:18

everything. And I'm a, you know, have a master's in family therapy in psychology. And so, I know also how psychological manipulation works. I know about psyops psychological operations. I know how you get people to do what they want to do. It's truly the proverbial frog

that's you're slowly turning up the heat. People get used to it and go well, it won't be it. It's at least it's not as bad as it could be. And then the next bad thing happens and then they warm them up to that to make that the new normal. Yeah, and then the next thing before they know it the frogs toast man. Yeah.

 40:00

You know, the boiled, it's time for frog legs. It is so low and steady process of desensitization. Sure, literally,

 40:10

no, no.

 40:13

It never it never really dawned on me because like, I grew up watching horror movies, and I mean, like ultra Gore horror movies portray, like, I wanted to be a special effects guy. Okay, so So for me, like if we had a couple of head lock things and a full body burn and stuff where there's a quality movie. Sure. And it never really dawned on me till I was in. I dealt with death in my family. I'd seen bodies I'd been to funerals, you know? Sure. But it never dawned on me how desensitized I was until the day I was driving down the road.

 40:51

And there was literally a body in a bag

 40:55

on this road, and my day just kind of went on.

 41:00

Sure, you know, and I was like, wow, wow, that the utter desensitization to the violence? You know,

 41:11

it doesn't take long. It doesn't take long. But it also doesn't take long for that to root itself in, like you said, and in the world of trauma in the world of PTSD as well. Absolutely.

 41:26  
So,

 41:28  
before we let you go here, in just a couple of minutes, let's let's talk about what's the way out? What's the way out we were we were talking about the the concept of prophecy, and the idea that there's there's always a way out with prophecy.

 41:45  
How do we how do people

 41:48  
start digging at an angle? I guess?

 41:53  
Well, you know,

 41:56  
as a bishop, I've got to, you know, just lay the truth out there.

 42:02  
What's coming is coming.

 42:05  
You know, we have no control over it. Yeah, literally, we're, we're in the passenger seat of a crazy boat.

 42:13  
And the only way out is to turn to Christ, that that is the way out. You know, Christ said, I'm the way the truth and the life no one comes to the Father except through me.

 42:26

Now we can either accept that at face value. Or we can call Christ a liar.

42:33

And say, No, you're just a way, a truth, a life, not

42:40

just a and

42:43

at the end of the day, the events are going to play out, you know, as far as the events for the end of the age, because that's preceding Christ's return.

42:57

Christ, when he first came, came as a suffering Messiah. He was the Lamb of God slain from the foundation of the earth.

43:07

When it comes again,

43:09

and he is

43:11

he's coming as KING OF KINGS, AND LORD OF LORDS.

43:16

And anyone who does has not submitted

43:22

will perish.

 43:23  
Because we've had now had 2000 years

 43:29  
to get our acts together

 43:31  
and to

 43:34  
do better.

 43:36  
Yet, each generation appears to get more wicked, especially

 43:42  
in the United States. I mean, every type of debauchery is okay, now it's a it's been a desensitization to sex violence and nudity. Oh, that's

 43:55  
groovy with it. You know? Hey, more sex, more violence, more nudity. Winner, winner chicken dinner, you know, you're literally dealing with and I did my fair share youth work I did my fair share of, you know, ministry, things like that. But you You are literally dealing with teenage sex addicts. No, sure. Things like, because of the ready access to pornography. It's not like it was when you've got a few years on me. Not a whole lot. Yeah, I'm in my later 40s.

 44:31  
Yeah. And back in my day like that, that was on the back shelf. Like you had to specifically ask the dude to grab it for you. You know, yeah. Yeah. No longer the case that is like available to mom or dad's phone.

 44:46

Yeah, you know, the button online and I mean, you could what was the wrong term? Yep. And you could be there. Absolutely. Yeah. That my mom or my mom, my mom.

45:00

My wife was just telling me about somebody in her mom's group the other day, they all got together as a bunch of moms. And they were like, Oh, the son gotta hold my phone and look this up. And they're like, Oh, my God, and she was like, Why didn't didn't think it was anything major? And they were like, I think you need to look that up. Yeah, she was like, Oh, my God.

45:22

You know, because it isn't different day and age. And we do have that. Even back in the day to learn about esoteric topics to find to find something like Kabbalah or things like that was was a searching and scouring of your local library for books. Oh, yeah. You were lucky. If you found anything on it. Yeah, yeah. It is more readily available now. Even mass interpretations of the Bible all readily available, like all the footnotes that you see, it's not hard to get them now. No, not at all.

45:58

So

46:00

really crazy stuff that the scriptures well, and like you said that that returned to Christ, whether that is

46:08

learning learning to be

46:12

right in your heart, you know, learning to be that Christ to everybody? Or, or whether it is a true return to church for you. I think the I think the point is we we all need to kind of straighten up and fly. Right? We've all been slacking a little bit.

46:31

Yeah.

46:33

And it comes down to, you know, God is God is infinitely loving. Oh, absolutely. Also, infinitely just

46:43

infinitely righteous, and infinitely holy. Yeah. And I think that message has been lost on these generations currently.

46:56

They see Jesus just as this hippie in the sky that says, Hey, as long as you're happy, I'm happy man, then that's not God. Well, and they, they forget the fact that there's a couple other aspects to God.

47:13

There's there's the father, he's, he's still got you still got quite a bit of wrath in there. Oh, Padre, you know?

47:22

Yeah, I never really dropped the wrath thing. Let's just say that.

47:28

Dad never really let that one go.

47:32

No, but no, when, because Christ is in unison with the Father. And you know, they're absolutely,

47:40

you know, their substances the same. And

47:46

there was a reason why Christ was known as the man of sorrows,

 47:52  
and why he's spoken of as the man of sorrows.

 47:56  
Most times, when you look at the writings of the ante Nicene, fathers, the disciples of the disciples,

 48:07  
and the apostles,

 48:09  
you read that much of Christ, time when he was here on Earth, was in sorrow, because he wanted so bad

 48:23  
to reach humanity. And yet, at every turn,

 48:29  
they either denied him

 48:32  
or outright opposed him.

 48:36  
And by doing so,

 48:39  
they're denying or opposing, the very creator

 48:44

of the fabric of space time. Anything else you want to call it? Yeah, you know,

 48:51

the great architect of the universe or the divine intellect, or, you know, the nebulous, God thing.

 49:03

He's also got an order. And what do you see in the world today, chaos and disorder, disorder, in the family's disorder in the judicial system, disorder and chaos in, in our personalities, the way we treat each other and everything else? There's only one father of that.

 49:25

And that's Lucifer.

 49:28

You know, he was, as Christ Himself said, He's the father of all lies, he was a liar from the beginning.

 49:36

And so

 49:38

it really comes down to

 49:42

one there is no middle ground. You're either on God's side, or you're on Lucifer side. And that doesn't mean you're actively you know, painting bloody pentagrams everywhere and you know, black candles and summoning demons and or even going to church every Sunday and Bible study.

 50:00

You're on Wednesday. Absolutely. And you can still be serving the dough.

50:05

Then it really boils down to one thing that I have really taken as my own motto. Is it by will be done

50:17

being like Christ in the garden.

50:21

Unfortunately, most of humanity says, My will be done. Yeah, I'm gonna do my way, what I think is best.

50:29

And so

50:31

the only other person at the very beginning that did that was Lucifer. Yeah. So unfortunately, following looser, Lucifers path also gets Lucifers reward. And you know, it, it's a hard pill to swallow father, the Thy will be done the Fiat, you know, and I used to teach a whole class on the best four letter word ever. Fiat

51:02

is the only good four letter word, let thy will be done, you know, and yeah, we go through pain, we go through torment, most of the time, we have put ourselves in that situation, we have put ourselves in the path of that bullet 90% of time. Absolutely. And, you know, when it when it comes to,

51:22

especially men of the cloth, I know, quite a few who

51:29

a lot of people that leave the seminary and leave that path, end up down a really bad path eventually.

51:38

Yeah, yeah, absolutely. And I think it really is that tortured, that tortured soul syndrome, where there there is this burden of knowledge. Yep. And you are literally just like, throwing bricks at balloons.

51:55

And to get people's attention. In the real world that Hey, wake up, this is not how it is.

52:04

And it's hard. Because you can't you can be literally building the wall while you're throwing the bricks and beating your head against it at the same time.

52:12

It can be hard to live with that knowledge and live with that burden.

52:18

And yet still be loving and caring to your fellow man, who is stepping in every pilot everything everywhere he walks and tracking it with them.

52:29

Well, and you know, something I had to come to grips with when I was younger, as a minister.

52:37

You know, I always felt like, I was getting frustrated and stressful that people weren't listening, you know, and

52:46

they weren't coming to the knowledge of Christ. And finally, I don't know if it was the Holy Spirit, or I just sat my own butt down. Most likely it was him because I doubt I would have thought of this.

52:59

He reminded me know the Scripture, no one can come unto the Father, except that no one can

come unto the Son except the father drove him.

 53:08

And so I sat with that. And I heard this voice. You don't save anyone?

 53:15

I do. And if they you, all you are required to do is tell them? Yep. And if they accept wonderful, if they don't, you've done your job. Yes.

 53:31

You know, shake your feet and get the dust off. And don't let it bug you because that's it. They're not rejecting me, as a minister. They're rejecting the words of the Father. Yeah, yeah, they're rejecting they're rejecting that capital T truth that they're be exposed to, which is, sadly, you know, ignorant, ignorant ignorance folks is literally having been exposed to something and choosing just now.

 54:00

Yeah, that's ignorance. You know, and that is the root of so many things that are near and dear to people's hearts. Father, and it's so interesting that we are having this discussion in the middle of Lent.

 54:14

Yeah. Because I think it's really important. I said it a couple of weeks ago, whenever Mardi Gras happened I was even whenever I was involved with my church, things like that I was never a give something up. I was a take something on

 54:30

what what am I going to do that I'm going to try to do every day, and not just like for the next 40 days.

 54:40

But but for all eternity. Like this. This is a 40 day chance for me to

 54:47

put a different branch on my tree of life

54:51

through experience.

54:54

And that goes beyond any church that goes beyond the walls of faith. I think, too.

55:00

To want to challenge yourself to be a better human being. Well, sure you as a therapist, I used to tell people and still tell people, there's only

55:12

two phases in life

55:14

progression and stagnation.

55:18

If, if you aren't moving forward to something, you don't have a vision of goal.

55:25

You're gonna stagnate, you'll start going down this toilet bowl of, you know, depression, stress, irritability, because you feel unfulfilled. You don't you're not Yeah, yeah. Yeah. Where do you think we should be? Well, in granted, that's not to and I posted this on a buddy's timeline the other day and was literally like, if you need to talk feel free to reach out. Yeah. Cuz he was saying the whole thing about, you know, if, if you're busy yourself enough, you don't have time to be depressed. And it's like, oh, enjoy that boomerang ride when it comes home to roost? Yeah. You know, like,

56:09

yes, yes, idle hands are definitely the devil's playground. But that's a that's a careful statement to make. You can't just busy yourself for the sake of like, forget now or not thinking about something the problem is not go away. No, because that's how it happens. Yeah. Burnout is just

something the problem is not go away. No, because that's how it happens. Yeah. Burnout is just as deadly as depression. Yeah, exactly. Exactly. So and you gotta be careful for that. You gotta, you gotta be careful with who you give your energy to how you give your energy away. And, you know, make sure that your cup is at least close to the brim folks so that you got a little bit to give to people.

 56:52

Absolutely. If you're cupping full yourself, it's it's hard to fill other people's cups.

 57:00

And it took me years to get away from my addiction. And it was it was mainly because of what we talked about just a minute ago.

 57:10

People not listening, and me having this what I believe to be this burden upon me.

 57:19

Which was totally misplaced, and utterly misplaced. And utterly there as a point of ego for me to trip on to lead me down that road.

 57:30

Sure.

 57:32

We all take on things we probably shouldn't. Sometimes we knew we shouldn't. And other times, we think we're doing a good thing. And then it turns around like this in the butt. And the truth is, life sucks. Yeah. But God doesn't.

 57:50

Good thing. And given name and prayer and reflection. I mean, you'll pull out of it. Yeah, but it while you're going through it. Yeah, it's honestly playing on that. There's a there's a you know, that's just it. This too shall pass. It may pass like a kidney stone. But, yes, it will pass one way or the other. You know,

 58:16

58:19

I had a really good therapist years ago, Joe, great guy. Hope you're out there doing great things, Joe.

58:24

He was going the clinical route. And he tried to explain my anxiety to me,

58:31

as

58:33

and he's like He going around your day regularly. I'm sure you run across a train track or two. What are you going to do if a train pops up? Sure. It's frustrating. But you sit and you wait. And eventually the train passes, right? You don't try to go through the train.

58:54

Like you gotta you gotta stop yourself from that want to sometimes plow through the situation? And sometimes literally surrender

59:07

is the answer. Yeah, it's very counterintuitive to think that way. But surrender is one of the most empowering things in the world. The idea of not my monkey, not my tree.

59:21

That's right. You know, why would you get yourself involved with it? You're like, Sure, you could wear a red cape for a minute but you're also now accountable for all that.

59:32

Absolutely. I think that you have to take on.

59:37

Absolutely. You can't White Knight yourself through life and expect everything to be roses and Garland's and whatever else. I mean, life happens, the good, the bad, the ugly and otherwise. But if you have something that sustains you through it all, which, you know, for me as a bishop,

it's Christ. My faith in God Oh,

1:00:00

pulls me through anything and everything and has pulled me through anything and yeah.

1:00:06

I tell you,

1:00:08

you'd never regret

1:00:11

aligning yourself with God.

1:00:13

And I mean, you might mean that when you're mad at him and he understands that and you cuss at him and stomp your feet. Yeah. Well, you know, like,

1:00:23

me and God had it been a long time since me and God had a had a knock down, drag out. Like that.

1:00:31

And believe me, I used to, like, I used to have nights where I like drove out in a way so I could go yell at God, like openly, you know,

1:00:42

in in that truth therapy, like just scream into the void way. But yeah, yeah, when things happened with my brother, it was one of those like, Why? Why? Yeah, what the hell has this man done? He has done nothing but take care of his family do do right by an ex that did him totally wrong.

1:01:06

He owns a retreat company, and has brought I don't know how many 1000s of children to you.

1:01:15

That doesn't make them immune.

1:01:19

That doesn't, that doesn't stop like the chain of life from happening. And even

1:01:29

even at 47 I had to have that stealing moment between me and my god of me literally getting pissed at my god and squared him and Yellin.

1:01:41

And isn't it a wonderful thing that he doesn't have such a fragile ego? That ego that he strikes you down with lightning? Oh, yeah. Yeah.

1:01:49

crept up in a piece of crap friend to him over the years, all kinds of things. Yeah, but he's always been there. Yep. The friend and the love that does not leave you. Absolutely. One thing else leaves you? Yep, he does. Yeah. And my relation, I tell this to people all the time. Father, my my relationship with my god is daily. I talk to my God every day. Do I step into a church to do that? No. I really don't have more.

1:02:23

I'm gonna swing. If I if I wasn't a bishop, most of the churches are crap these days. I'll be blunt and clean and honest. Yeah, most of the witches are crap. They don't know what they believe or why they believe it. And so the the walk around spitting out dogma that really has no basis in one in the historical Christianity or in the board where history, Christianity, it's all self help. Pop Psych. Hey, let's slap each other on the butt. Have a good time and call it church. Yeah, that's church. That's Entertainment. Yeah,

1:03:01

it does. Right. Well, on Sunday morning.

 1:03:06

I knew I saw a certain Houston preacher every Sunday when I lived in Maine. Yeah, I lived in Maine, and caught that broadcast every Sunday. Oh, wow. Yeah. Yeah. And I watched it because it was like, hey, there's my hometown guy. You know, in their shoes. Hey, is a producer. I've done that kind of production for churches and for mega churches. And they're, you know, there's a different level of production that's going on there. It's super fun. But yeah. Is it the word the word? Is it the word in action? necessarily all the time? No, no, no. And I would venture to say it's not word in action. 99% of the time. Yeah. It's a feel good country club. People go to eat food. Check out each other's wearing we're going to do the bowling alley on the left on the left part of the campus after church. Yes. And we'll have our tea and crumpets in the foyer. Yay. Yeah, we'll have we'll have a short little like cappuccino Bible study with pastor's wife.

 1:04:18

The other thing that's in the Bible hey, if I

 1:04:22

think we got something going on here, actually hold on.

 1:04:29

I mean, I'm there with you. You know, modern church. Yeah, right. And I can't imagine what God thinks of it. I can't imagine.

 1:04:40

I'd love to say rolling in his grave but that's just tasteless.

 1:04:45

But before we let you go, Father, let everybody know where they can go to purchase your book walking with ghosts. Of course it's available on the curious realm store but how they can get a hold of you if they are someone under oppression.

 1:05:00

spiritually if they are somebody who who might need

 1:05:06

-----  
a religious ritual cleansing of their property, their home themselves, a family member, tell everybody where they can go for all that.

 1:05:15

Yeah. You know, for me myself, I'm in South Dakota No. And I don't travel

 1:05:22

too far. But we do have a network of diagnosis that can meet people and help help them and whatnot. I will say honestly, if there's a Christian with enough faith, anyone can be an exorcist if they have the faith, but that's the thing. You know that you have to have that faith otherwise you'll be torn up. And that's what makes an exorcist versus

 1:05:52

just your average minister or just your average priests because I've known preset run out of haunted houses.

 1:05:58

Oh, absolutely. But

 1:06:02

as far as getting a hold of me, they can contact

 1:06:06

my group on Facebook,

 1:06:11

paranormal researchers

 1:06:14

in paranormal research investigators and St. Michael or prison, they can contact that they can send me a private message on Facebook to I'm on there.

1:06:26

That's fine. I don't mind that.

1:06:29

I might not be able to find someone in their area to help them. But I'll absolutely be looking around or advising them to find a local church that actually believes in or exorcism. Yeah, because very few do. TARS pastors and priests will just brush it off. Yeah.

1:06:52

But I'm there to at least advise and get them on the right track, if nothing else, but

1:07:02

as far as my book, it's on Amazon. You can find it there. And like you said, it's walking with ghosts and exorcist memoir of the paranormal. It talks about my my generational issues with my family with ghosts, demons, UFOs, aliens, that kind of stuff. I even wrote a bit, a little bit about my

1:07:27

experience as a kid.

1:07:30

But there been a lot happened since then, that I haven't wrote about. And, you know, missing time, that kind of fun stuff. Weird marks. Yeah.

1:07:40

But I just take it with a grain of salt. That crap is

1:07:45

it's like, come on. Yeah, you're born just like the demon. They bore me.

1:07:51

You know, we should

1:07:53

we should actually do a whole episode on the idea of generational oppression.

1:08:00

Absolutely, and the fact that like, it is kind of a sense of the Father's situation. And almost that, that that old, old European tradition of the Senator.

1:08:16

Yep. You know, and somebody who comes in absorbs that generational sin from you before you pass on. So that you're you are clear for holy rights and things like that. Just it's, it's, it's a really interesting

1:08:33

study in, in Catholicism and Christianity, I think. Absolutely. And from a psychological perspective, a lot of it's learned behaviors. Yeah. Yeah, you know, and that creates its own self perpetuating curse because the behaviors never change. Yeah, yeah. And, and even going down to the fact of, you know,

1:08:56

like, epigenetic,

1:08:58

absolutely genetic and things like addiction stuff like that, where where it comes down to because your, your last three people in your family were hardcore alcoholics, you know, have a predisposition to alcohol. Sure. Yeah. And, you know,

1:09:15

to some degree that genes carry memory. And so, literally, it loosens in your in your makeup. Ooh, wow. Wow. We definitely got to do that episode soon. Absolutely. We've studied all that to thank you as always, for coming on for sharing your wealth and breadth of knowledge when it comes to the scripture to scriptural interpretation, your open heart, your open mind, to conversation as a man of the cloth and a man of the color.

1:09:49

All too often not the case. So I want to thank you for that. Always you you have always come on their show

1:09:58

with the most open heart and well

1:10:00

Just open of mind for the conversation that we have. So thank you. I just am what I am. And like pop I am what I am. And that's all I'd say Would it be Papa?

1:10:13

But

1:10:15

as always, thank you so much again, Archbishop James cloud. Until next time, we're gonna go and let you go and run off to commercial and hit up our next guest. Thank you so much for coming on tonight. You're very welcome. Have a good one blessings, Father, have a have a very blessed and fruitful win. Yes, YouTube.

But one of the only men of color that I know that is open to such discussions like what we had here tonight. So so great to see that. Speaking of other discussions that we're going to have tonight, we're about to hop off to commercial break, enjoy our new video loops, all that kind of good stuff folks. And when we come back, we will be talking with generational abduct T nice a Betty and Barney Hill and MUFON experiencer lead Kathleen Martin when we get back from this commercial break folks.

Our guest in the second part is Kathleen Martin. She's the author of so many books. The two that I have here in my library are extraterrestrial contact, what to do when you have been abducted, as well as her new book, forbidden knowledge, a personal journey from alien abduction to spiritual transformation. Kathleen has been

 1:17:48

involved with MUFON for numerous years. She is a field investigator. She's a good friend of our friend and guests of talk. Welcome to the show. Kathleen, how are you today? Thank you. It's great to be with you. I'm doing terrific. Man. I am so excited to have you on the show. Like I told you in the pre interview. I have been into your work for years. I love your writing. And the topic of abduction. I think

 1:18:15

it's almost one of the dirty secrets of you followed up, sadly, oh, well, you know, you hear so many things about crop circles everything else. But when you when you get to the point of abduction,

 1:18:29

you lose a lot of people. And it's it's kind of sad because that is one of the things that it's that is a close encounter of the fourth kind is abduction, folks. So let's get into real quick Kathleen before we get into your realm of work, what you do for MUFON all of that how did you come into the world have you follow GE How did you get involved with this?

 1:18:58

Well, I was 13 years old and returning home from school for the day. When I walked in and found my mother on the telephone having a very unusual conversation with my Aunt Betty hill. It was September 20 1961. And she and my uncle had been on a short vacation to Niagara Falls to Montreal. And then during the night when they were returning home to their home on the sea coast of New Hampshire. They had a close encounter with a UFO they called a flying saucers in those days. And it had come so close to them. In fact, it had hovered silently, only a couple of 100 feet above their vehicle. My uncle who was a confirmed skeptic, got out of the car and insisted that he was going to identify it he had binoculars he when he stepped away from the car

 1:20:00

It

1:20:01

moved to an adjacent field, it was still hovering now about 100 feet overhead, and it was starting to descend in his direction.

1:20:13

There were so many mysteries in that case. And I watched the unfolding of these events of my aunt and uncle's response to them. They made a project Bluebook report to the Air Force, they made another report to the national Investigations Committee on Aerial Phenomena. I knew many of the people who ended up investigating this case early on because we were a close family. In fact, only two days after this conversation that Betty had with my mother,

1:20:52

my family, and I went to Betty's and Barney's home about 20 miles from my childhood home. And I heard the story myself from my aunt, I held the watches that had stopped operating, I saw the spots on the trunk of the vehicle that caused a compass to spin

1:21:17

and

1:21:19

indicating a magnetic field. In that area, those spots had not been there before this incident. And there they were shiny,

1:21:32

all about the same size, about size of half dollars, if you remember what those look like.

1:21:40

just old enough.

1:21:44

And, you know, so, so many mysteries. Betty's dress was torn in several places. There was a pink powdery substance that eventually grew on that dress. It's undergone scientific testing and several laboratories. Later on, because Barney had been hospitalized for a bleeding ulcer

related to this experience, a white hat and his conscious recall of observing these non human entities and being fearful that he was going to be captured.

 1:22:24

He who was hospitalized this was life threatening. He was referred to Dr. Benjamin Simon, a famous neuro psychiatrist who taught at Harvard who had owned his own private sanitarium, who,

 1:22:40

when he was younger, and two had been a colonel in the army during World War Two, and had set up the

 1:22:51

psychiatric hospital.

 1:22:54

on Long Island, New York, it was the Mason General Hospital, and he successfully treated veterans returning home from the war with what they called Shell Shock and conversion hysteria in those days. And, you know, this is exactly what Bonnie was suffering from.

 1:23:15

It was a different cause. But certainly that level of fear, yeah, and the subconscious memories of of having been taken, having been captured, taken to craft and examined by nonhumans, not knowing if he'd ever be released, even though they were reassuring, he and Betty that they only needed to do a few simple tests, and then they'd be on their way. So that's that was my introduction. It's really sparked my curiosity, but I went on to professional career after college, and worked until about 1988 to 1990 when I was stricken with a debilitating disease, and I had to leave my profession. I was incapacitated, unable to walk unassisted. And finally I started to become a little bit better, but I my condition waxed and waned. I was seeking intellectual stimulation. I had a dream of being a writer. I had an originally

 1:24:35

begun to study that when I was in college, I talked to my Aunt Betty about it and she said, Oh, Kathy, don't do something like that. You'll never make a living as a writer.

 1:24:49

Big become a social worker.

1:24:53

There you go. Tons and tons of money in social work. Oh, yes, absolutely. The benefits

1:25:00

So you get the health insurance and the paid vacations, that sort of thing. Well, I was left without a career because I wasn't well enough to work. And I thought, you know, something I could do for intellectual stimulation is investigate my aunt and uncle's case, I could do the research, the investigation, familiarize myself with all of the files, interview baddie drive to the along this route when I'm if I'm well enough for somebody else can drive us. And that's what I did over a period of many years because of that health condition that I had, that I no longer have that so I've been free of illness since 2012.

1:25:51

Yes, so I, I'm extraordinarily grateful for the healing.

1:25:59

I have written about that in forbidden knowledge. That's just one of many things that I wrote about. Well, that is one of many notes that I have sitting right here on my whiteboard in front of me is the healing that comes along and you actually quote that but before we get into that, there was a part right here in your chapter discovery that I wanted to get into that you mentioned about your uncle, Barney that I have mentioned so many times with our good friend and guests, Terry Lovelace. Yes. And that is the fear. The fear that comes along with these things that the literal stymieing Fear where you don't know what to do or how to react.

1:26:45

Despite the fact of you know, carry at the time being not only a trained military person, but a trained EMT, somebody who was trained to react in emergency situation. Even he was stymied by his experience.

1:27:01

And there is a part that you I'm going to quote it right here and incredible 78% reported that they are becoming increasingly increasingly psychic, and 50% can facilitate healing and others telepathic communication with ETs as pot is possible, and 88% of experiencers, sometimes on craft and sometimes in their own home. The troubling fear response by experience in our study, alerts me to a serious need in the UFO abduction, contact community.

1:27:35

And I think that fear

1:27:38

plays a big part in a lot of things, not only in wanting to come forward, tell your story to understand, like, like Michael Carter has said so many times on our show the fact of not, not knowing who else to share this experience with. And you know, especially back before the days of the internet before chat rooms, things like that, like, how did you even find that support?

1:28:06

You know, yes, and it was nearly impossible to find support. Yeah. Back in those early days, you were aware of certain researchers such as Budd Hopkins, David Jacobs, and then later John Mack, Dr. James Harder. But there were not that many people who were public, even investigating these phenomena. So it was extraordinarily difficult and people

1:28:38

lived in terror. They held it inside because they couldn't risk speaking with someone because they would be laughed at they'd be asked what they had been smoking or drinking. Or oftentimes they'd be told that they were insane. And they needed to see a psychiatrist, or that they were possessed by the devil, and needed to get on to their knees and pray. There's a little bit of that still occurring today. But

1:29:08

I've taken many steps toward assisting experiencers to lead toward understanding. When I was asked by the Mutual UFO Network to head up their experience or research team. There were only three of us on the team. I didn't know exactly how I would proceed. But I began with Denise Stoner and a team of other specialists to by developing protocols for the investigation of an abduction. MUFON didn't have those protocols in place at that time. We did that first and then I started to talk with experiencers who were just getting in touch with me who wanted to have the opportunity to

1:30:00

speaking with someone without ridicule someone who would respect some guy who would be empathetic toward what they had to say. And would not pass judgment on them. Yeah, this team, I was very quickly

1:30:00

 1:30:20

ready to quit, because I had no time left in the day, there was so much demand. And so we ended up with 50 over a period of 10 years 50 Wow, people who are trained listeners who are kind, compassionate people. And also we had by the time I left this position, by the time I left this position, we had, I believe it was five to seven, PhD,

 1:31:01

psychotherapists,

 1:31:03

MD psychiatrists on that team, who worked as consultants to the team, and met with us, we all met once a month, we still do, I'm a consultant to the team now. So to an advisor, I've stepped down because I'm involved in other things, I don't have time for everything in my life. So.

 1:31:26

So that's a little background about what I've done. In addition to writing six books, the well and of course, you know, working with the likes of skin, Freedman for many years in the field, working with experiencers. And I think one of the things that they, of course, like you said, people people are afraid to come forward because of ridicule, things like that. Even even in Terry Lovelace his cases, the fact of he was he was a sitting lawyer. You know, imagine how many cases would have been asked for reevaluation, you know, absolute things like that. So, and when you talk about, especially people,

 1:32:11

like the fire in the sky incident, things like that, it's not necessarily the best thing in the world to come forward for your life. You know, it's just the opposite today. Yes. made public. Yeah. Like my poor poor Mike Weston, is, is in a in a sad, sad state, because of things.

 1:32:35

And people don't understand the fact that like, yeah, you will, you will lose jobs, all kinds of stuff. Whenever you come out with this. There's a reason why Aaron Montgomery's book is called Dirty Little Secret, you know, because it's it.

 1:32:52

It's not easy even to come out to family with it. Absolutely. What was what was what has your experience been with this? Cathleen because of course, part of what you get into in forbidden knowledge is is once again, that healing concept. Let's get into that real quick.

 1:33:14

And like you said, there was there was the contingent that had healing abilities there. About 80% of experiencers are now experiencing psychic abilities, things like that.

 1:33:28

Yes, well, that is very interesting to me, because I've wondered, what has caused this. And thankfully, we've had the omega one, two and three studies, the fourth study is taking place as we speak. And the first two were done by two professors at the University of Connecticut, Kenneth ring, and Christopher Rosen.

 1:33:56

And they did a comparative study of near death, experiencers and experiencers of ET contact,

 1:34:06

determine if they had anything in common or if they were different. And what they found is that experiencers of contact had all of the characteristics that near death experiencers share. And in addition to that,

 1:34:23

they

 1:34:25

there's an indication that there is more trauma in their lives, because this experience when you don't understand it, can be incredibly traumatic. So absolutely. I mean, I have only experienced sleep paralysis episodes, things like that. I actively have anxiety attacks in my sleep. I don't know how that's possible when you're literally the most relaxed you can be.

 1:34:58

But you

 1:35:00

Those are terrifying enough even knowing what they are. So I can't even imagine the PTSD they have, which is what we now know as shell shock, things like that, you know what your uncle was diagnosed with?

1:35:16

And, yeah, it's, it's, it's not a pleasant experience for most, whereas most people, most books I've read, most people I have interviewed who have had the near death experience. It is a transformative and a stealing point in their life, where they realize that they have a chance to do something different. They haven't chance to change.

1:35:41

It's not really something where they leave with a whole lot of like, whoa, what was that experience and questioning their existence? Or what's happening? You know, most of the time they leave with a mission.

1:35:54

Not so with abduction.

1:35:58

That's true. And, you know, it makes me wonder what brings about this near death experience kind of change in experiences of contact? I wonder if when they are taken to craft through solid surfaces, such as windows or walls or ceilings?

1:36:25

Does this induce a near death type experience in them? Because they I've? Well, let me say first that I've spoken to two broke three brilliant physicists about this, but two of them

1:36:42

at a more lengthy level. And but all of them said to me, Well, you remember 99.9% of the atom is empty space, right? And theoretically, everything has a vibrational frequency, nothing is completely solid. And if you can align frequency and phase then atoms can interpenetrate. So all you have to do is adjust that frequency. And that phase, and you can pass bodies through solid surfaces, because they're no longer solid. You know, what we think of is solid, we've already done it in a laboratory using neutrinos. Were just technologically not there. But someday we will be Yeah. So then you have to ask, Are these ETS as we call them, using this kind of technology? Or do they? Are they simply interdimensional? And do they have interdimensional portals that carry humans to their space? And maybe both is happening? Because I have many reports of both of those things occurring with experiencers of contact? So I find it incredibly interesting, because Oh, go ahead. No, no, go ahead, please. Because

experiencers have contact and experiences near death. experiencers look at the world differently, they view themselves differently after they develop, some of them become mediums. So I know many experiencers contact who are mediums, they,

1:38:30

they have

1:38:33

electromagnetic anomalies in their homes, they have light orbs that seem to have intelligence coming into their homes, that sort of thing. So it seems that they they move in a certain direction beyond the solid three dimensional humans that we think of living on this planet.

1:38:59

Wow. And, you know,

1:39:02

just to, to throw out a theory and a concept here, there. There's a scientist with a unit called the God helmet, who was actively experiencing with or experimenting with near death experience type experiences. And of course, this is all done through magnetic field, things like that magnetic resonance through the skull. And there have been numerous instances of people in MRIs having the same sort of experience, the bright light, things like that. It would be very interesting. Of course, the technology that any et civilization would be using would be

1:39:42

highly magnetic in that in that RF field for levitation, things like that. So to know like you said, the scientist said, all you have to do is match that frequency and vibration.

1:39:57

Much, much like you take any piece of metal

1:40:00

will then stick it to a magnet and later on, you can pull it off. And it's a magnet.

1:40:05

Yes, because the electrons are now aligned the same way no different than the experiencer. In this case, it seems like where where almost, they have they have shifted into

1:40:19

that vibration. And enter now, like you said, able to see and experience that on a more regular basis.

1:40:28

Yes, absolutely, it does change an individual

1:40:34

at the deepest core of their existence. And they develop these wonderful capabilities of being telepathic of in the presence of extraterrestrial sometimes with one another.

1:40:56

Developing the psychic or intuitive ability of becoming empaths, where they can sense or feel illness and another person's body as if it is their own two

1:41:12

cents, the emotion as if they are experiencing it themselves. So that's another psychic sense that experiencers develop.

1:41:23

There are many changes, and it is profound, and experienced or is, I know, need a place where they can go to feel comfortable. And many have gathered on social media groups for experiencers, where they can speak with others where they can gain support for themselves. My book, extraterrestrial contact, what to do when you've been abducted is a comprehensive guide for experiencers of contact,

1:41:58

the different types of contact, what to do when you've had this contact, the stages that you go through from denial to finally acceptance, so the different characteristics we share. Yeah, and and you know, it's interesting, because so many of the phenomenology that somebody goes through the arc that somebody goes through after their experiences, almost sadly, like

 1:42:30  
victims of abuse,

 1:42:33  
you know, the, the attachment and even sometimes the,

 1:42:40  
the utter wanting to deny the fact that it happened to them.

 1:42:46  
Absolutely. Absolutely. Barney did that. You know, when when he arrived home?

 1:42:53  
He said to Betty, don't ever tell anyone this Oh, wow. Oh, good can come of it. And while she called my mother, and told her.

 1:43:05  
And then, when Betty and Barney went out to the spots on the trunk of the car with a compass,

 1:43:13  
Barney said, We'd better forget about this as fast as we can. He

 1:43:21  
What was his reaction to it? It's it's normal to attempt to forget about it to deny that it happened.

 1:43:31  
Most people who have talked to me and I've talked to probably a couple of 1000, at this point, have said in the beginning, I know that this is going to sound crazy to you. And I have to reply, no, it's not going to I've I know, you know, I have a background in the mental health field. That's what I studied in college.

1:43:57

And I have an incredible amount of knowledge about contact at this point. And

1:44:07

none of it sounds crazy to me. I know the difference between mental illness and real experience. Well, and let's get into that real quick, because I think that that is hugely important to understand.

1:44:24

These are not things that And granted, that's not to say that there are not people who do not experience similar things, who do have mental health issues. Absolutely.

1:44:36

But there is a

1:44:39

there is a great number of cases out there that are fully

1:44:47

unexplainable as to how they happened, but fully real, in the case that they did happen.

1:44:56

And let's get into that real quick.

1:45:00

have? Well, yes, they are incredibly real. People who have had these contact experiences generally remember a little bit of it, they have conscious recall the psychologists who have come forward and said that it's all

1:45:20

sleep paralysis are incorrect. One of the questions that we asked

1:45:27

on the studies that MUFON did was do, do you have a history of waking up? Unable to move your body, you can move only your eyes. And you have shadowy figures overhead? Well, yes, about 93%? I believe it was I don't have the figures right in front of me said yes, well, those are the symptoms of sleep paralysis, and some people do have sleep paralysis, in sleep paralysis, it's, you know, just that you, your body's a little bit out of sync, you are not completely awake, yet, you're coming out of REM sleep and in REM sleep, you are paralyzed, able to move only your eyes, they generally are moving back and forth in REM sleep. So

1:46:22

then we asked,

1:46:25

Have you been wide awake? Have you had nonhumans come into your environment? Have you been able to move your body but you suddenly become paralyzed out among the general experience or group all overall, it was less than 50%. But among those in what we had identified as the UFO abduction syndrome

1:46:57

group, which had all of the characteristics is determined by what was called the American Personality Inventory, chaired by Dr. Don C. Don Dari and graded, he was the psychology PhD psychology professor who helped to standardize this instrument. And what we discovered is

1:47:25

that those people have a very high rate, more than 50% 60% or more of being wide awake, of having these non entities come into their environment of observing them, and also their family members.

1:47:48

So we've been able to establish an intergenerational link among family members. Yeah. And that was exactly my next point. On my board, to me was the energy energy generational link, especially with hybridization, things like that. Now, with that intergenerational link in mind, are you yourself and experience or Kathleen?

1:48:15

I am. And I thought that I would never state that I intended to take it to my grave. But certain

things have changed in my life. And I felt that it was necessary to come forward at this time, rather than to leave this information on for people to find after you passed on. Yeah, so that's what I am doing. Of course, there's that factor of ridicule. And I don't care about that ridicule. What I believe is the people who ridicule you have their own set of beliefs, that this is not real, or that this is all demonic, which it is not there. It's a scientific program going on here. Demons don't do science. And

1:49:15

that needs to be a t shirt that is available on your website.

1:49:20

That's a great idea.

1:49:24

If that's not your catchphrase, I don't know what it is.

1:49:28

Yes.

1:49:31

And so I won't even respond to those individuals. So I've had people who wanted to debate me like, I'm not going to debate anyone. I certainly am not going to debate religion. Well, so you know, one of those How can you even debate belief, right, the belief you believe it because you believe it? Well, yes. And we have this conversation with so many people on the show Kathleen about the fact

1:50:00

of the reality that you have is what comes to you through the filter that you have seen the world through. You know, whether it's your experiential filter, the filter of the religion that you were raised in, what have you.

1:50:16

I was raised Roman Catholic, I spent the first year in college studying to be a Catholic priest. I taught religion and CCE for a decade, things like that. That didn't mean that in the background, I wasn't reading Kabbalah in my spare time, the appunti Shadz, you know, reading world

religion, reading other texts, reading about the things like Betty and Barney Hill and stuff like that, and having an open mind. Unfortunately, most people didn't and don't.

 1:50:48

Yes, absolutely. But I chalked that up to ignorance. Yes. And most people who take the time to actually engage in the study of these phenomena, end up saying, Well, I've seen the evidence that it's real. Yeah, it's those who don't seek the evidence, who pre judge who are having the great difficulty and who are coming forward with

 1:51:21

a scathing review. So if people who had do have these experiences, so it was, it was, shortly after my, my first experience with a shadow person, at the foot of my bed.

 1:51:39

And a moment of sleep paralysis, and I remember at the time, telling you, this was the beginning of my departure from the church spiritually.

 1:51:50

And I remember telling at the time, my spiritual director about this experience and asking him, you know, what the, what the Church teaching on it was, was there a church teaching about the paranormal? You know, ghosts, what have you? And he's like, Well, no, really, Chris, you know, that's, yeah, we don't really have a teaching on, you know, stay away, uh, don't talk to the dead, things like that. But we don't we don't have a teaching on that. And I'm like, That's funny, because you literally asked me to believe in something due to spectral evidence

 1:52:27

by you as a point of faith.

 1:52:33

So, but but yet, still, you're telling me that my experiences are real, that what I what I felt what I experienced,

 1:52:42

wasn't real and will not be acknowledged. And I just I, that's too much of a leap of logic for me to bridge.

1:52:53

I just, I couldn't, I couldn't like I was literally genuinely coming to you for a question.

1:53:01

For an answer to a question. You literally were like, we don't even know acknowledge the question, right.

1:53:10

The question doesn't exist, guy. Yes. You're telling me that evil is stalking my soul around every corner.

1:53:21

You know, there is good and evil in this world

1:53:25

of salutely. And we have to as individuals, program ourselves and our lives in order to deal with these negatives and positives and try to bring as much positive as possible into this world and eliminate the negatives that come is attracted to many people who have behaviors and that cause these negatives to be attracted to them. But let me tell you, it's a sort of a sad story. I have a friend whose mother passed away and because of her religious indoctrination, when her mother came to her to speak to her after her death, my friend rebuked her as the devil. Wow. Which it's such a sad circumstance, because so many people have told me that their loved ones have come back and left some kind of a sign for them. Either the scent speaking to them directly, something that they valued greatly just shows up drops out of the sky, so to speak.

1:54:45

And, and it's so sad that someone's mother ever comes lovingly in and that individual rebukes that person as evil. Yeah, absolutely. And even even to

1:55:00

to

1:55:02

rebuke somebody's experience of abduction as evil,

1:55:08

that's no different than pardon a pardon the expression in the equation both both from the experienter side, and the abductees side, as well as those that have been sexually abused, but that is just like telling a rape victim that no, that didn't happen.

1:55:27

Precisely why, like, literally not be piling on to the PTSD more.

1:55:36

Absolutely, denying it outright and saying why, you know, I appreciate that you think this happened to you? But no, it really didn't.

1:55:45

Like you were literally adding to the level of PTSD that that person is experiencing. You absolutely are and and think of Travis Walton, for example, here is a young 22 year old man who is just taken from the woods where he was working on his way home after dark from work, and goes missing for five days. Now, that was enough to cause a trauma and fear in in Travis. But add on that those who made it a point to attempt to destroy his life, those who ridiculed Him, and also Mike Rogers, who attempted to

1:56:38

paint Mike Rogers as a criminal. Yeah. Which I mean, that is simply unforgivable, from these just informants who had an agenda to destroy people absolutely. Had credible cases of contact. Like I said, micro, I would love to do a whole episode sometime. And I'm getting ready to approach Mike Rogers about it about

1:57:04

the horrible rabbit hole that this can lead your life down.

1:57:10

Absolut, the number of people on social media, the number of trolls that go after him.

1:57:18

It is horrifying, horrifying to see. And hey, you know, between friends, those two guys, whatever whatever happened happened, but that doesn't mean that you discount somebody's experience. That doesn't mean that you personally attack people like that. And like I said earlier, it is not always it is pretty rare. That and you know, people are like, wow, you know, you had a movie made about him. Yeah, you know, who's not living as a millionaire, Travis Walton. That's true, very true.

 1:57:55

Like, nobody's out there making making millions off this stuff, man, that's true. Nobody gets rich off of this, it is it is not in your vested interest to come forward and say that I was taken aboard a craft, that that I had an experience in my backyard. None of it, none of it is to your best interest to come forward with. So anybody that does, like I, I give more than a tip of a hat to that is that is the biggest point of bravery in the world. Yes, it is brave, because

 1:58:37

the only thing that you can do by making this public is to help others who are having the same experience, it's certainly not going to enrich your life or improve your reputation. Particularly for people like me, who have a very good reputation as a scientific you follow ologists who for many, many years, you know, I began as a nuts and bolts investigator, I was looking for physical evidence and I found a lot of physical evidence.

 1:59:13

And then in 2011, I, through the research that I had done through my own personal experiences, I had to acknowledge the interdimensional part of all of this the power normal part, the overlay on this as well to to simply ignore it as I had been doing to me was like putting my feet in cement and not moving beyond the physical evidence. There is so much that is common among experiencers of context that is not entirely

 2:00:00

Physical, it opens a can of worms, it's more difficult to understand. It then brings in religious implications, but also spiritual, it that there is so much to study there, and so much to learn from. And I'm very pleased that government officials are now studying all of that and attempting to explain it scientifically. Because this is explained through theoretical physics. Yeah. Yeah, like, like we were saying the the conversation that you had, with the scientists talking about vibration, that is a point that we bring up on the show regularly, the fact that 90% of what we see not even see 90% of us is empty space, we are literally by all means of physics, right now sharing an electron shell, caffeine, or electrons are co mingling as we speak. They are by all by all knowledge of physics, how far away electrons travel from their nucleus, you know?

 2:01:07

So yeah, yeah, it's really interesting. Whenever you start getting into that realm, and like you said, to,

 2:01:15

to have that start really becoming a true path of investigation. Now, to start having theoretical physicists coming in on the game

 2:01:28

of investigation, it's different than going out with a Geiger counter in somebody's backyard. You know, it's a totally, totally different world of investigation, like you said, than what you started with. And what is that done for you now, like you said, to open your mind to that concept.

 2:01:49

It has given me deeper insight into all of this, because consciousness plays a vital role in the understanding of contact. And it is,

 2:02:05

it has interdimensional components. Some of these ETS say that they are live in the fifth and sixth dimensions.

 2:02:16

We can feel them, I can feel them.

 2:02:21

In my book, forbidden knowledge, I have written about

 2:02:26

an experiment that I participated in with other researchers and investigators. And we ended up learning how to connect with these unseen ETS, we can feel the strong tingling presence in our bodies, we learn to communicate with telepathically. In this book, I have written 120 questions that we asked over a two year period, and their answers to help us to understand all of this. And so

 2:03:06

that's what I've learned. When I was able to finally open my mind put my reputation as the nuts and bolts investigator aside,

 2:03:19

maintaining the same level of knowledge and even moving toward further knowledge in this field. I was shocked Valais found this a long time ago, I met John Jacques fillet for the first time in 1967, when he visited my childhood home with a team of scientists to work with my aunt and uncle on a psycho physics experiment, which we think of today is the CE five experiment. Interesting. That was one of the many things on my board is what do you what? No, I'm a CE five member. I've only done a couple of exercises, things like that. But I have been looking at setting aside a lot more time for that. What is your opinion on the CE five protocols?

 2:04:08

They work? I don't know if they work for everybody. But a lot of people have tried them and said that they work and these entities in their craft are coming into their environments. Sometimes they communicate telepathically. I know some people who have actually had the materialize in front of them. And I have taken part in these CE five protocols and sometimes we have had certain things occur.

 2:04:41

I

 2:04:43

in my first experiment, I attempted to call in a craft I told them earlier in the day that I'd love to see their craft. I had a green triangle show up kind of a fluorescent green. Oh wow. I

 2:05:00

outside my home in the clouds, it looked fairly large, about the size of my thumbnail or larger think of the full moon as being the size of an aspirin at arm's length.

 2:05:14

And it's I didn't know for certain what it was, my husband didn't look at it. But he said, Oh, that's probably fireworks in somewhere in one of the neighboring towns. Well, the next day, I looked in MUFON files, and I looked elsewhere. And I discovered that there were a group of people in the next town over who saw the same craft. Oh, wow. So I was I was pleased with that. I've been with others who we've been told to go outside and look, and we would see things

2:05:52

I've never seen craft. As close as I would like to see it in any of these experiments. I've seen craft that has come in, and I've watched it come in as red orange craft coming from the distance, and then suddenly, it will just like explode in front of me. And I

2:06:18

have been shown a whirling circle over my lake, about 35 to 40 feet in diameter. It is not a school of fish swimming very rapidly. It's not a duck in the center, paddling

2:06:36

turbulence in the lake. I've been shown three grayish orbs with Amber centers bobbing along my lawn. So I've been shown a number of things by these entities that we learned about in this experiment that I talked about in the book. Wow, that is absolutely incredible. And the before we let you go, one last question that I had for you.

2:07:11

The Council of eight.

2:07:14

Yeah, let if you can explain that to the audience real quick, because the Council of eight is, of course prominently featured in forbidden knowledge.

2:07:27

What is the Council of eight? Kevin? I have just talked about an experiment that researchers and investigators and I took part in. It was a secret project that ran for a period of two years, we

2:07:45

were charged with the invitation to study this to attempt to acquire scientific evidence that it was real, or to simply dismiss it. Was the man involved in communicating with these non human entities. Delusional was either attempting to perpetrate a fraud on us, or could we experience evidence that this was real, and we in the end, were able to measure a temperature change in the room when they came in to introduce themselves. It for the fifth and sixth dimensionals, it was more than a five degree increase in the area of the room where they were

standing. For the ninth dimensionals, there were two nine dimensionals, there was more than an eight degree temperature increase as measured with a laser thermometer. They we could feel a very strong electrical tingling in our bodies, in their presence. It was

 2:08:56

what I believe was as scientific as we could possibly be in this study, we invited skeptics to come in as well, eventually. And the skeptics did saw nothing of what we were able to see. And what I was able to conclude and others who took part is those of us who could get into our right brains through meditation, for example, by raising our vibrational frequency, we're able to experience these phenomena that we could see and we could feel in our bodies, but those poor in the left brain and who were vibrating at a lower frequency were not able to. So it it was an incredible experiment. I've devoted almost half of the book I believe, yeah, a bit knowledge to this, opening up this forbid

 2:10:00

The knowledge that first came into the US government and the Canadian government officials lives in 1954. Yeah, yeah. Programs like Operation Stargate, stuff like that, where they were, you know, full on testing, remote viewing,

 2:10:18

that kind of stuff that people like how put off, we're involved with that. Yes. All kinds of things. And just like, Steven Greer says, I just actually watched the documentary about CE five again, yesterday,

 2:10:34

as I was sitting out in the living room, working on a website, and yeah, just the idea that

 2:10:42

they're more scared of this, because individuals are able to make that contact outside of their system.

 2:10:51

Yes, absolutely. And since the government had the opportunity to meet these nonhumans, and to even be given pieces of technology, and to be able to move us along on an evolutionary scale, and to make our lives easier, no government in the world would do this, because no one was willing to share this with other countries in order to put all of this together to develop this technology. And so what the ETS did is they went to the people, and they said that eventually, more than 50% of the population will know this is real. And they will at that point, there will be

a tipping point. And everyone will know. And everyone will be raising that vibration, which so many people around the world are doing through these CE five contact experiences. And through meditation day. Yep. And just like he says, in that documentary, you know, the, the, the experiment of the hydrogen atoms in stasis, where it takes only 1% of them to coalesce into one vibrational state for the rest of them to follow suit.

 2:12:18

It doesn't take that much. I mean, the point we make on the show all the time, Kathleen, is that it less than 20% of the American public took place in the American Revolution.

 2:12:31

Yes, less than 20, it took less than 20%, to change that tide, and to change the way that we all live our lives now, every one of us. So it doesn't take an overwhelming majority, to change the way things are. And I think that's where most people's mindset is, sadly, is that they think that like until 80% of people accept this, that it's not going to happen. And that's not the case.

 2:13:00

I believe that you're correct in this and

 2:13:06

people only need to open themselves up to learn and to learn how to protect themselves to because there is negativity that can come in. And I've written about all of that in forbidden knowledge and some of it and extraterrestrial contact, too. And what to do about that how to protect yourself. Yep. Yeah. Because you, you really do have to remember that. Anytime you're doing that you are, you're peering through a window.

 2:13:37

That window, that window looks both ways. You got to make sure to shut the curtains behind you.

 2:13:44

Yes.

 2:13:46

I know of a few people who wanted so badly to make contact that they ended up with negative reptilians Oh, wow, there's lives so

2:13:57

be careful what you wish for make sure you have the knowledge before you

2:14:04

undergo this endeavor. Well, and of course, make sure that your intentions are right and pure and in doing what you're doing, you know, you you can't have any selfish intent with it. That that will bring that negative attraction. So absolutely. Absolutely. Great advice there Kathleen. Well, before we let you go, please do let everybody know where they can go to find your books where they can go to contact you where they can go to file reports

2:14:36

and and actively share their abduction experience if they are somebody who

2:14:43

has honestly been affected.

2:14:46

Well, you can purchase autographed copies of my books at Kathleen with a k dash Martin ma rd and.com via PayPal, or you can purchase my book

2:15:00

It's in multiple formats at Amazon, and Barnes and Noble and ever other online bookstores, forbidden knowledge is available on my website and at Amazon. At the present time, it's just been released. And so, in terms of making your reports of talking to people, you can go to the Mutual UFO Network mufon.com Try to get in touch with members of the experiencer is called Resource Team. Now, they have a list of support groups, they have a list of qualified mental health practitioners who believe that ET contact is real of hypnotist and Hypnotherapist. So there is a lot of information, you can go to my website and look through it first read what it has, if you having positive contact, or you have overcome the negativity and fear in your life. I am one of four people who formed a support group called The Awakening souls. And you can apply to become a member of that.

2:16:15

You can also contact me through my website, I offer one hour consultations for a small price. I decided to start charging because I didn't have a life of my own. I had to do my own work for

myself. Absolutely. I had to make that decision.

2:16:39

Thank you so much. Oh, most definitely. Thank you so much for coming on taking the time to discuss those. What I believe was truly important topic as as we discuss on the show so much there is there is what I believe is to be a veneer being put over the disclosure movement right now whenever you start seeing and hearing the media using terms like UFO denier, that kind of stuff, you really need to watch out because the last 6070 years, that has not been the case, it has been Hey, some whack job in Detroit saw a UFO. Here's the story coming up at Tim,

2:17:22

stuff like that. So for for there to be such a hard pivot and mentality, I think that we need to bring things like advocacy for experienced crews to the forefront, and really get ahead of this thing before things get maybe a little bit out of control within a community. Absolutely things things can get out of control rapidly. And I think that some of it has already happened. So it to know that there are people like you out there, people like Seth, who are working with experiencers I cannot think of two better advocates for that. So thank you so much for all that you do for the community for all your years and years of research, and for caring so much about those who have experienced this, Kathleen.

2:18:15

It's been my pleasure. It's my life's work and thank you so much. It was great talking with you today. Absolutely. Please do hold the line while we close things out.
