01:14

Well, hello everybody, and welcome to this special pre recorded episode of The Curious realm. While you were watching this, I am currently on the road in fabulous Salt Lake City, Utah, handling a show for clients. But as always, we bring you nothing but new content here on curious realm, I am very proud to have been on the air for almost a decade now and never done replays or anything like that. It is a challenge, but we are always glad to do it, and we are very happy to welcome in this segment our good friend, Daniel Jackson. He is a spirit medium. He is the host of beyond the veil. With Daniel Jackson.

01:56

He has been on the show so many times. He's here tonight to talk about spirit messages and the idea that, you know, we all have a a spirit that is attached to whether you want to call that a soul, whatever your personal belief is, we all have some kind of energy that we emit, but we also have a spirit And a spiritual energy that is following us as well, that's always there with us and for us. And Daniel is one of the many people that we have on the show that is truly a connection to such things. He has revealed so many things, even to me, personally, about me on this show. So welcome back to the show, Daniel, how are you doing this evening? I'm doing great. Chris, thanks for having me on. I appreciate this. It's always great to talk with you. And you know, man, as I came into this episode today with all of the madness going on in the world, things like that, it was really one of those like, I am, I am glad that I'm talking to Daniel today a I think I needed it. But B, I think the whole world needs it right now. Daniel, I think we all need a reconnection with some sort of spiritual side, a reconnection with something that is that is literally larger than ourself. Yes, much larger. It's much more bigger picture than we can never imagine. How did you first come to be connected in this way? What age did you first start receiving these messages from the Spirit side? I've seen Spirit ever since I was three years old,

03:35

and that just progressed throughout my life. But around that time, my my mom and dad and I, my two brothers and my sister, we lived in New Jersey, right next to the Delaware River in this little town. And this is they had a battlefield there, and this is where the Hessians fought. So because of that, our house being so close to that area, and some of the other houses around that area were all experiencing spirit.

04:02

My sister was getting ready for school, and my mom was helping her in the bathroom. They went up to this door that had a full length mirror. All night when they stood in front of the mirror, there was another woman standing in the mirror, and she had on a colonial outfit. Oh,

04:17

wow. One time my brothers and I were downstairs watching TV. And this is back in 70s. My sister up in my sister's room, her record player turned on, but it but, you know, you lift up the record, you put it on the post, and you flip the switch and drop it down. Well, it wasn't just playing that record. It was switching records. So whatever was there was picking up records, taking them off, and putting other records on and apparently it liked the Doobie Brothers, and it liked Alice Cooper and Pink Floyd as well. You know the records. You know it was finding a tune it I wanted to listen to. But yeah, my brother, my one oldest brother, sent me and my other brother, my middle the middle brother, upstairs to go turn it off. And we ran up.

05:00

Stairs and ran in the room and turned it off, and then we were jumping down steps. By the time we got back to the other other room, I thought, you know, my brother's got to protect me, because my old brother, he just sat there like nothing ever happened.

05:13

So, so these are instances that you have had throughout your entire life that,

05:20

yeah, I mean, even up to

05:22

when I was 17, my mom and dad and I moved down to Delaware, and so we were in this new house, and I was playing drums in a rock band. I had big hair. I was wearing zebra stripes, spandex. I thought I looked pretty cool, probably not so much. And I came home from a gig, and when I laid down in bed, something laid down next to me, and so I rolled over to see what it was, and nothing. And I felt the bed shake, and I was going on. And then this happened three or four times, and then that fifth time, when I rolled over, whatever was there, picked up the blanket that I had on top, and he brought it up to the ceiling, and it shook it above me, and then it dropped it on top of me, and I was in just such fear. I couldn't say anything. I couldn't my body just tensed up, and I was trying to get words out of my mouth. And then I ran downstairs and told my mom and dad about it, and they said, We're not experiencing anything. But from that point on, I slept on the couch for two, two more years,

06:17

I was just I'd seen things throughout my life, but it was just becoming more prevalent throughout my life as the older I got, okay, okay. And you know, that is something that we've heard from so many people that are mediums and spiritual mediums. Daniel, the fact that these instances, and even the fact of frequently it it that there are familial connections with such thing. Yeah, the one

06:46

connection where I was then I was my my our house, and my mom and dad, my grandfather went to away because he was living with us, and he went up to see my uncle. And so I was hanging out in his room looking at old pictures of my grandmother, who had passed away and and all this. And my sister was down to visit. She had this little ferret with her. You ever see one of those? Oh, yeah, so it looks like a rat. Yeah, this thing was not nice, and she named it Pia for pain, yes. Anyway, so I was laying on, yeah, I was laying on the bed and just laying there, almost falling asleep, and I heard a squeaky noise, and I kept telling the rat, hey, pia, knock it off. Knock it off. And then finally, one time I, when I when I set up, to tell it to knock it off, my grandfather's chair was a rocking chair. Was rocking back and forth, and the spirit of my grandmother was in the chair, and she was just looking off into the into whatever. And then she turned around, saw me, and her eyes got real big, and then she just disappeared, like, I was like, and I was like,

07:49

okay, it was just a lot. It was because I hadn't seen my grandmother in two years, sure, sure. And you know, once again, with these instances being fairly regular occurrence within your home, within your family, things like that.

08:06

At what point did casual visitation, in such a way become intentional message? At what point did you start to realize that, like there were very intended messages coming through to you,

08:23

spiritual realm.

08:26

I was,

08:30

I was at the mall. I had gotten married my first time. Now I'm on my second one. So he was ill. That worked out. And I had, I had an operation done on my foot, and I had to wear this big boot, you know, the big booty you see everybody walking around with. So I wanted to get out of the house. We went to the mall, and I said, Let's just walk around. And I was, I was starting to get tired, and I said to my wife, I said, Look, I have to go to the bathroom. Can we just find a men's room? She said, Sure. So we go back, back into what used to be Sears, and we're looking around, and I see the bathroom. I said, Okay, I'm going to go in there. She said, All right, I'll wait for you out here. I said, okay, because she waited out there in case something would happen if I slipped and fall. So I go in there, I sit down in the stall, and immediately after I sit down, I hear a voice echo in the bathroom and said, everything will be okay, my son. And I was like, what? And I stood up from this, from the toilet, and I was like, I'm looking around. There's nobody in there. I mean, I was like, Where the heck? Who the heck was in here? So I get myself together, I get out of there,

09:41

and I my wife standing outside. I said, hey, could somebody just walk into the bathroom? And she said, No, you're the only ones been in there. I said, Are you sure? She said, I haven't moved from here. I said, Okay, well, then

09:53

what the heck is going on? She said, why? I said, I heard a voice. I'm in the bathroom.

10:00

It, and I heard a voice come and said, everything is going to be okay, my son, she said, Maybe God was talking to you. I said,

10:08

for what? She said, Well, you have been pretty anxious about your foot and all the issues you're having. Maybe he just came in to talk to you and try to settle you down. And then not long after that, maybe about a year after that, my wife and I were having some issues, and we were separating. I was riding down the road of my motorcycle. I had music in my ears. I'm playing this one band that I really like, and I'm coming around a curve, and as soon as I come around the curve, the music goes, slows down, and then a voice comes in again. Everything will be okay, my son. And then all sudden, and I was like, what the and the music turned back on in and I was like, Oh, my God. I mean, it distracted me so much that I pulled out the side of the road. And then I tried to replay it, replay it, replay it, nothing. And then when I got home, I tried to replay it, nothing, nothing,

11:03

just it was it was becoming something else at that point when, when I heard it twice at that point, then

11:12

I ended up getting another job.

11:15

That job didn't work out. I had gotten to a really bad work accident,

11:20

and so from then I had to go to school. Was doing that. And then I ended up working, doing medical records in a prison. I show up to work one day and and I pull into the work and I'm listening to another band on a CD, on my on my CD player. And again, the CD player comes down, and this voice comes through. But this time it comes through a woman's voice and says, Daniel, your your life is about to change. And I said, What?

11:50

And then music came back on again. I was like, What the heck? I mean. How would it say my name, Daniel, your life is about to change, coming through a CD, and I was like, What is going on here? This is and then it wasn't too long after that

12:08

that

12:09

my wife went on vacation for two weeks.

12:13

And for those two weeks, I saw everything you could ever imagine in a hot and then, like a scary movie happening in my house, just everything green, red mist pouring out of the walls, skeletons and skulls floating around with red eyes and fangs and eight foot skeletons walking around the house, and little creatures coming through the walls and coming up on my bed. And I'd see people from distances coming through and just walk right through my bedroom and going through the bed. And I remember laying in bed, and I was always

12:44

trying to make sure I wasn't, wasn't late to work. So I'd always check the clock, even though I had a buzzer for the clock, and I'd roll over and check and check it. And one time I rolled over, and when I rolled over, there was a little girl kneeling next to my bed, and she had on a blue and white dress, and she had little, little tiny socks on and black shoes, and she had blonde hair and blue eyes, and she was just sitting there staring at me when she got a notice that I was looking at her, she just, you know, disappeared, and then I saw these clouds coming out of the corner of the room. Was by the bed, and each night it would be either red or blue or green or yellow, and then red with black stripes, green with black stripes, blue. But every time that cloud came through, I always felt a presence of a woman in the room. So I said, I started calling it miss lady, because I didn't know what else to say at this moment. And

13:34

then one of the real bad incidences was

13:37

I saw a cloud form above the bed, and what? And then it opened up into a wall of blackness, like a like a window. And then I saw two skeleton arms come out.

13:48

What was strange to me, because I always see spirit all the time, because I noticed everything was when the arms came out, it didn't have any hands, so it was like from the wrist up, and then it pulled a body out, and then the head came out. And the head was had these big eyes. It was looking around the room and checking everything out. And then it locked eyes with me, and then it moved from being in front of me here to up to the ceiling, and then over top of me, and then behind me, and then it disappeared. But the biggest, the biggest one that was really odd is

14:20

I went down to the basement because I leave my cat downstairs. He likes to, likes to bang on the door. Wants to go down in the basement, so I let him down, and I go down to get him. I said, Come on, buddy, it's time to go to bed. And he looks at me. He looks to his right. I look to my left, and then a wall of blackness appears in the middle of the floor, and then a man walks out of it, and he had this big, wide rim hat and a small coat. Couldn't see his face, but I could see his facial features, and he just walked across the floor again. Another strange part. When I saw him, I was like, Look, observing the whole thing. And when he was walking across the floor in perfect stride, no feet, and he just walks across.

15:00

Floor, and then goes through the wall and gone. And then I turned back, and the wall of blackness just shuts up. And then I look at my cat, and he's looking at me like, What the heck was that? I was like, I don't know. And I pick him up and went upstairs, and, yeah, it was a it was much. There's a lot. And then after that, my wife came home for after her two week, John was saying her daughter, and she told me about her adventures, and then I told her about mine.

15:26

And even at that point, my wife was a was a registered nurse, she thought maybe, because I'm diabetic, maybe some of my medications were causing a diabetic, sure, psychosis, yeah.

15:39

So she, even she later revealed to me she questioned our relationship at that point because I had told her some ghost stories. I have ghost stories, you know, I have a gazillion ghost stories. But then, when I was seeing so much in this two weeks, she thought, well, I don't know if this is going to work out, you know, yeah. And then three days later, she started seeing some of the same things, but she was seeing most of it surrounding me, like

16:05

outside the bedroom door. She would see these orange globes that would be floating around outside the door. And then she would go into the bedroom, and she would see a bluish, like a bluish, purplish, whitish tornado that was spinning around over top of me, and she she said she would see these little lights go through it. And then she she said I didn't need a night light, because I'd go into the bedroom. And she said, you would physically glow. And I was like, okay, but and then it was maybe a couple weeks after that, I witnessed what she was talking about. I saw the I saw the tornado above me, and the little lights going through. And then I would say, I look down and see myself physically glow. And it still happens every day. Now I'm just used to it that that is incredible. Now this brings up a few questions. Number one,

16:57

the instances where you heard the voice speaking to you. Were they? Were they independent within these independent instances? Were they independent voices? Or was it one distinct voice in all, one distinct voice the first two times and then a distinct voice the second time? So it was a woman's voice, so two, two different voices amongst the three instances, sure, and I've heard other voices as well

17:24

throughout throughout this period of moving forward and growing and progressing, other distinct voices that also have come through and saying some things about me that were kind of

17:39

strange and well, and that's understandable, you know, because there are some things happening to you and around you that are more than a little bit strange, especially at that moment. Daniel, yeah, now it's just become natural life for me. Now it doesn't I say this all the time to my friends, do you want your house to be haunted? Invite me in. It will be in 10 minutes, and I'm not joking, so every time I go to some so I don't have a lot of friends who invite me over, because they know these things happen when they come into the house well. And that was my second question, was these, these things that happen?

18:14

Are they? And I asked this question very specifically for a reason.

18:21

Are they experiences for you, or are they vision

18:26

for you,

18:28

in the in, in the right that, like frequently, whenever people have connection, and we'll get into your, your Archangelic connections, sure things like that here in a minute. Sure, because that's where this is going. But they're there, especially in the people that I've spoken with who have angelic connection things like that, there is a very distinct difference for them between experience of the angelic and vision provided by the angelic. Sure, as well as I can explain to you how you would actually be having that type of angelic connection, because there's a process to it. I went through the process and and once I once I tell you the process, if you don't hear the process, but you can actually ask that person, what's the process? And if they don't tell you what I'm talking about, they're not doing it. They're just not but so. But these instances like I don't see, I see into what we refer to as heaven, and I see in what people think is hell, but isn't. But there are some horrible things going on there. And I just call it the low energy dark realm. It's dark because there's no light there, and the only light that's coming that is around is coming on those who are there. And I say those, I'm not going to say people, because not everything I see is people. I see people, dogs, cats, horses, cows, fish, other beings from other worlds. I see everything, but I also see.

20:00

See structure buildings. Now, in the low energy realm, I see buildings there, but they're all run down looking and some of them, the places I see, look like the 1940s and haven't moved anything past that. But when I'm seeing that place, I'm not just seeing it. I'm there because they interact with me. They talk to me,

20:24

they wave to me, because I'll wave to them, just to make sure they can see me. And I see some very

20:31

natural things that aren't so bad. I was

20:35

in my bedroom, and I keep my bedroom completely blacked out so I could see everything. And I had some, a whole group of spirits standing in front of me, and they're very curious at the same time, but they know who I am, because they're one of them. Turned around said, Hey, Daniel, can you hear us? And I said, Yeah, I can hear you. Turn back around, said, yeah, you can hear us. And that was it.

20:57

And, but go ahead, go ahead, but I see worse things.

21:04

I also see in the very deep, dark realm of it. I see the things that

21:09

sometimes when I see it looks like the worst horror movie you've ever seen in your life, except you wouldn't be able to see this movie because they wouldn't show it in television movies. It's that kind of bad where one of the places I was at was in a room,

21:21

and the room I was standing behind this being who was in the front of the room. Now I know, since you know cartoons, you know Bugs Bunny, there's the Martian one, where the the Martian guy, but the little he has that big, tall red thing with the big eyes and the fire and all that stuff. Yeah, well, I saw a being that looked like that. His fur was so thick it looks like little like thick little branches, and that's how thick the hair is. And he's standing in front of the room.

21:49

And then in the room are people, and they're all in these rows of women and men, women and men. All the men on had these, these grayish shirts on, like a button shirt, and the women had a blouse on, and

22:05

and they were all looking down like this. They couldn't move. They had their heads all down like that. They'd look with their eyes up a little bit, and then they would just stand there. And they were allowed to move because this being was controlling them.

22:19

And then I saw one guy. So what I had done was I crouched down. I know my they see me differently than most spirits see. When Spirit sees us, they see your body frame, and they see your light inside of you. That's your soul they know. And when they see a soul that's a little bit brighter, they know that's someone they can communicate with. That's why they're able to communicate with some of us. But when they see me, I know for a fact, because when I was finding this out about myself being a medium, one of the mediums I saw said, I see you like Spirit sees you, and then you look like a human figure, but you're just solid white light. I don't see any any facial features or anything. You just like a walking light bulb, looking around, but you look like a human figure. So I'm sitting there, and I crouched down because I want to see the back of the room. So I crouched down. And when I scratched down, I see this one guy, like peep his head out from the line. And then I go, and then he does it again. I went, hey, hey. And then he got back in line, and then real quick, came out, went then get back in line, because he didn't want to be seen by this being.

23:25

I'm looking to the back of the room.

23:28

There's no back of the room. It just goes on forever. There is no and it's just lines of people. Then I see another one of these beings comes up,

23:40

but they don't look as fluff, fluffy and soft and cuddly like the one on the cartoon. Yes, look like that. But this guy, so guys I got, but it also had these huge fangs on its on his face, and looked exactly like that. You could see the hair very thick and and he comes up through the line. He grabs one of the people by the back of the head, he pulls their head back, he puts his mouth over him, and then you see an energy him sucking energy out of this person into it. And then when he gets done, he puts her head back up, sticks him back in line, and he walks back to the end of the line, wherever the heck he's going. And it just goes on forever, and it's just so these other there are other beings there who are in control of all the other people there to use them as an energy source. But I've also seen another scene

24:29

where I see it looks like an ocean of people, and it just,

24:36

it's just pure debauchery going on. It's just there. It's like a S and M festival going on,

24:46

and, and that's all they're doing. And, but I saw buildings in the background, and these look, they look like ruins, and they're just, it's just a notion of people,

24:56

and they're just doing whatever it is they're doing. So.

25:00

So.

25:01

But then the one of the strangest things, now, I thought that was strange, but one of the strangest things I saw was, again, my consciousness, my my light being is in this room, in a hallway, and I see all these people standing in a hallway, and I see this guy standing like a door opening, no door, just the opening, and he's letting people in, and I see this woman come up, and she's got a little girl with her, and three little boys. And the little boys come up and they walk in the hallway, and they stand against the wall.

25:33

She walks in with a little girl.

25:36

They're all they're talking to each other, but they're they use telepathy. That's how they all communicate with each other. They actually, I know that they have a brain inside of the head, but you know, the head, the brain they have within their head, is only used for for communication. That's it. It doesn't, you know, everything else is the souls. The soul is everything. So and the kids are just sitting there talking to their nerd laughing, and then I hear the little Go, go, daddy. And I'm like, looking around, and then I go like this, and I see a man coming down the hallway from my right.

26:09

And he comes up. He looks like Dick Tracy. He has this alone, like the coat and the hat and everything. They all look like they're dressed from the 40s. And he comes up,

26:20

and he puts his he puts his right arm out

26:24

and grabs a hold of her hand. And then he said, Okay, I'll see you soon. And then they do a quick spin, but they look like mist. It just goes. And next thing you know, they're facing the other way. And now he's got her by the by the right hand, and they're just walking off. And they go out of the hallway. The hallway turns into an alleyway, and they go through the alleyway, and all sudden, they just kind of like, missed and gone. And then I looked back, she grabs the three boys and walks out the room. It was a child exchange, like, like anybody that anyone else would do when you had two parents who were separated. And I was like, What the heck man this is?

27:03

This would just but, and when I saw inside that alleyway,

27:08

I saw fire escapes and stuff like that. No cars, no mechanical other like mechanical moving, motorized things moving. But, I mean, there were buildings there. They just looked like they're from the 1940s just old brick buildings. And so these types of things that I see, and I witness all the time, again, some of it is okay, like that. But then again, I see these, these other scenes of debauchery all the time. It's just going on. It's just I also see this other thing I call the parade. I see this more frequent than anything. I see a parade of people coming from, like, a couple of 100 miles away, and it's just winding

27:49

and they're coming up this road, and there's some built, like a building there, and just couple buildings, and they're walking past it, and it's as though I'm sitting on a balcony. I'm looking down, and I know they see me because they walk past me and they look up.

28:04

And then some of them will point to me to others, and they'll tap them on the shoulder, hey, look at that. And they'll look at me and stuff like that. And that's when I eventually, I will start speaking to them. And the very first time that it happened

28:16

in this way, I saw them all walking past me, and it was millions. And it's not, they're not just and they all, they all had clothes on. Some of them

28:26

look like, again, like 1940s some of them look like they have their peasants. And some of them, I can't tell, because they're not human. So, so they're all walking past. And then I just said to them, it just came out of my mouth. I didn't try this. I was just watching it. And then all sudden, it came out of my mouth and said, Come up to the light, move into the light and pass through the light, and you shall be received into heaven as one of God's children. Because God wants all of his children to go home. It's time to go home children. And when that came out of my mouth, I was like,

28:57

did that just come from? I mean, what's going on here, and then all those people to watch, a million people, just stand there and do this,

29:07

and look up at me, and then they all start coming towards me, and I said, and then it came out again. Get in line. Get in line. Tell all those behind you to get in line. And I was like, it was just coming out of me, and then they're just coming up, and they're coming through and they're going through me. And this happened for like, 45 minutes, and flashes

29:26

like around me, and I'm watching it the whole time, and but then it kind of ended, and then I saw, I said, the eye said,

29:37

Okay, if there's anybody left, if you want to come, if you want to go home, you could just come up in line, just come up in line again. And then I heard the voice come through, and the voice said, No, you've done enough. And I said, No, I haven't I have to get these people to cross over. He said, No, you've done enough. You've already crossed over 6000 people. And I was like, but I need to cross over more.

30:00

I need to get him all here. And he said, No. I said, I got to do this. This is what God wants me to we don't want to talk about him. We don't want to. And they were saying some horrible things about

30:09

him. And I said, No, no, we got to do this. We got to get him. Come on, everybody. And then. And then see people coming up, and all these other beings coming up. And I had one spirit who came up and said, Come on. I'll help you get through. I'll help you get through. And, and, and I was like, I was like, Thank you, thank you for helping me here. And she's like, Absolutely, I want to go too, but we got to get everybody here. And I was like, Okay. And, and then that voice came through, and he said, and he's yelling, no, no. And it turned from that

30:36

to No. And I was like, man, whatever, man, because I know again, like as we will talk here in a little bit about being with archangels, they protect me from all negative energy. So I could walk in on any haunted house in this world, and nothing negative can touch me. Now, regular spirit to touch me, and I feel little buzzes all over me and stuff like that. But I close my eyes, and then I see them standing in front of me and and or my my guys will touch me on my face for yes and no answers, and they they will start talking to me and tell me something's here I need it needs my attention. So I'll be sitting my computer. I'll just stop, turn around, turn out the lights and and go to town and start getting them crossed over. But, but, yeah, those are the type of experiences that I see. And I see this every single day of my life. Never turns off. It never goes away. It never stops. I see everything all the time and and, you know, that's a that's got to be wearing at some point in life. You know,

31:33

even, even the most gifted at some point feels put upon. Sometimes. Daniel, and, yeah, I have to navigate through life. The question that I bring up at this point, especially talking about paranormal investigation, leading spirits to the light, things like that,

31:51

a

31:52

the difference between ghost and spirit? Is there a difference between ghost and spirit? Really? Yeah, I mean spirit, the spirit is within us, but, you see, but I call them spirit. I don't like to call them ghosts, because they're kind of like, I don't know, degrades them a little bit, maybe give them so much respect as what they are, because they've all lived lives. They all, they all had lives. And I don't just see like, I see dogs, cats, horses, cows, fish, other beings. I see trees. I see plants. I see everything. So everything that is alive has a soul, even down to the littlest, tiniest amoeba has a soul. So, but we just don't understand that, and we also don't have respect for it either. And I try to put that respect out there by just calling them spear

Absolutely, absolutely. And the reason I bring that up is because there, there is the whole concept of like, there is the ghost that is like reliving a traumatic loop. What have you? Oh, I see that I have one of those. I I just did a show that I have. I have another show on my network, and I call it bale tails, and it's about everything I see here, feel, smells, sometimes taste, when I say, sometimes taste you don't want that part and communicate with spirit. And I have a, I have a spirit that comes through. Her name is Mary Lipton. Mary Lipton has seen has been a part of my life since being a medium, and I met her while being back in Delaware, and she's still here. So because there's no time and space, and Mary Lipton comes through, and she looks like Betty boo, and she wants me to not cross over into the light. She wants me to remain here in the Earthbound realm to have a relationship with her and and I keep telling her, Mary, I'm sorry, but I'm going to cross over into the lane. I know you're very nice, you're very pretty, but I don't trust anybody in the lower into realm, because a lot of them are just liars and stuff, but, but no, but why not? You cross over. And then when I say, start to say that, she shows me how she passed away, and then she wants to do that too, so that I will feel sympathy for her and and she just showed over and over and over again, and she went swimming out in an ocean, and she got eaten by a shark, so Wow. And she shows it to me ever since, and it just over and over and over and over, I guess that is the ultimately, the question not just a question between spirit and ghost. You know, the one who is reaching out to communicate with a loved one because they've recently passed, what have you, or the one reliving a traumatic loop. But Does, does every spirit have that compunction or need to go into the light in that kind of way, not even the idea of like, I'm going to stay here in the negative realm, but the idea of like, they've made a choice to, let's say like, stay behind and help somebody. Absolutely, yeah. I mean, some people do get lost and get lost absolutely, there's no such thing as a rainbow bridge. I mean, not all spirit. When I'm my wife and I go to the veterinary office, I close my eyes, because wherever I just close my eyes, take a look around. I see hundreds of dogs and cats sitting around just waiting for their owners, but their owners left, because they left the building already, but they did so. But I had an instance where a guy I was sitting at my computer, I said, I'm gonna take a nap. That never really happens. I put my feet up on my bed when I did, close my eyes, there.

35:00

A man standing in front of me, and immediately I go into it. It's just like a it's like a switch. It turns on. I said, Hey, buddy, you want to cross over? And he said, No, I don't think so. And then me being curious, I said, why not? Maybe that was a thing to do. I say, why not? And then on top of me, he imprints a memory on me, but it's like I'm in a dream. I'm an Awoken dream, and and I'm awake, but I'm him, and he's in this alleyway, and it's real dark in there, and I see a neon sign across the street and stuff. I mean, they can, they can show you everything. And, and then this guy comes running past the alleyway and stops. And then he comes back, and he looks at this guy, and he picks his arm up and points a gun at him. Well, this guy picks his arm up to point a gun at him, but when he picks his arm up, my arm comes up. My arm just comes straight up and points that gun out. And then they start changing fire. And then the guy who I am now shoots that guy. That guy drops down. And I went, Holy crap, you just killed that guy. And then as soon as I said that, right back out of me again, and I said,

36:11

I know you killed that guy, but I'm getting the sense that you did this out of self defense. And he said, Yeah, that guy had been following me all night. I couldn't figure out why. I was like, okay, so Well, I had to defend myself. And they said, I always keep a gun on me. And I said, you don't have a gun on you now, do you said, Well, no, because they know where they are and and I said, I said, so is that why you don't want to you don't want to cross over? And he said, No, I

36:38

don't want to cross over because I don't want to have to come back again. They are very aware that if you cross over, as I teach people, you are here to learn lessons, but you're also fulfill a purpose. Now, learning lessons, everything you're going to do in your life is a lesson. If I pick up this towel and I put it down, what I drop it? Oh, how do I learn that lesson? It's not a good lesson or bad lesson. Next time I'll trip a little tighter, and I won't drop it. That's a lesson. Everything's going to be a lesson your life, but fulfilling your purpose, that's a choice. You're either going to do it or you're not. Like if somebody comes up and they're trying to get up a curve, and you go, Oh, let me help you get up that curve. That's fulfilling your purpose, doing an act of kindness, doing it for the reason, just because, helping someone in a way or something in a way that they can't physically possibly do for themselves, or you're helping them to figure it out. That's what our purpose is. And you're going to choose to do it, or you're going to choose not to do it, and the more times that you choose not to do it, well, you're just coming back again until you get it right. That's it. That's all. That's what it's based about, I mean, and this guy, he just, he said to me, he said, Yeah, I don't want to come back again. And I said, Oh, now me at that moment, because I get told everything that I need. I knew he had to come back, and he now knew that. I knew he had, knew he had to come back because he can read my mind. I said, All right, well. I said, Look, man, you don't have a lot of time, except places got to come to an end. He said, What do you mean? I said, that place where you're at because I know this, that low energy realm is coming to an end in five years, and I know how it's going to happen, but I said, Look, you don't have a lot of time, because those beings that are there, when it does come to an end, they're going to have one more choice to either cross over or actually expire. So

38:17

that's it. But yeah, he just walked away. Here's the problem. He walks away. I'm sitting in my dark room, and now that memory is mine. Yeah, yeah. It doesn't go away. It's still there well. And you know, once again, that the idea that these things are thrust upon you, these things are but and once again, it's part of your purpose. So it's for me to be I see everything that I do and experience everything that I do. So I can explain it to other people in human terms, so they can get a better idea and the reason I'm explaining it all to them, so I can also teach them to learn, to listen, trust and follow through with what their spirit guides and their soul are telling them, to get them on the correct path, so they will be on the path to to learning their lessons, but also fulfilling their purpose, so they can go home, stay home, not come back and do this all over again, because he wants us to learn. That's what we're here. You know, there's a term. It says, God bless you. Well, he did. He put us here. He wants us to figure out the rest. But we have this. We did. We have our own soul and our spirit guides who are here to help us. But we have to, you know, we you hear the terms all the time. You know, Chris, I was walking down the street today, and something told me, Well, what do you think that something is or I don't feel right about this? What do you think that I don't feel that right about this is, we don't ever explore what it is. We get these, I got a feeling, but they never look into where that feeling came from, or what that feeling means, and why are they getting it and not trying to figure it out. They just go, you know, or you know, they they say, I just knew, you know, like they see a car in front and they say, I'm going to pass this.

40:00

Car, and then they get that feeling that says, Don't pass the car. And then, boom, they pass the car, and they get to an accident. And then they tell their friend later at the hospital, I saw that car in front of me, and I just knew. You just knew, because your soul was just trying to tell you, don't pass the car. But you talked yourself out of it, because the world taught you not to have having to trust the faith within yourself to do anything, but it also taught you how to have selfishness and ego at the same time. Yeah, so it's weird because it's very much like you said those human terms, but for very unhuman conditions right now. And the conditions with which we do these things and why we do these things are correct, very inhuman frequently, and the fact of like it has to deliberately be so like you have to be willing to take part in that and understand that, right, right? And I have to be able to to under

40:51

even if I have a trouble understanding it. Then my guides will come in and talk to me about it. I get, I get thought into my mind. It's in the very beginning for me, I would get these thought messages in my mind about 5% of my day. Now it's 98% of my day. It's never not there, so it's more or less now just the shared thought. Sometimes I hear the occasional, frequent voice will come in through and tell me something as well. But everything else is just a shared thought, thought. And then they also touch me on my face. When I get a yes, I feel this across my eyebrow or some other place in my face, on my head, and then when I get a no, it feels like a tear running down my eye, and it's just, it's like that I ask a question, and so sometimes I don't even get the question asked, and it's in my mind, and they're already answering me, and then they just talk to me and have conversations with me. And in the beginning it was one touch here, one touch here for yes, and then that for No, on both sides my face. And at this moment now, because I just had a new one come in last night, I get touched in 107 different places on my face by 107 different Archangels well, and I know the name is of who is doing it and when and why. Well, in aside from visual appearance, things like that. Daniel, when when it comes to these voices, when it comes to these messages, how do you determine the difference between

42:14

a normal spirit and Archangelic presence?

42:19

Because when I see, when I see archangels, most of them don't like look like people. They're not

42:25

they're actually telling me I know the difference of

42:31

the voices. I know the different voices of each angel that is talking to me. I have a personal relationship with each and every one of them. How many? But how many do I actually have with

42:42

me all of them, that's all, but I know the names of the ones and I know their voices at the same time, so I know the difference between that is who is speaking to me, because they are very black and white. They're very straightforward, although they do tell me we like a good joke, Daniel, but, but they do are very black and white with the way they talk to me. It's very straightforward, no bullshit, nothing whatsoever. Whereas regular spirit have a lot of bullshit,

43:11

okay, okay, and regular Spirit just talks just like us. They talk about the same things, yeah, I mean, they say some I had a woman come in one time, I saw her standing in front of me and another girl standing next to her. And the woman came into me because she's in the lower energy realm. I could, I know, because they look different.

43:30

The ones who are in the lower range of realm are I can see them that I can see clothes and stuff like that, but they have a bluish hue to them,

43:39

and then, and and then they're a little bit more transparent, where the other ones who have crossed over into heaven are not so transparent. They look more like us. I mean, the likelihood of you seeing someone from Heaven has probably happened in your life, where you'll be walking through a crowd and you see somebody turn around, they smile at you, and then you look back and they're gone. You just somebody from heaven. They like to visit all the time, but the ones who in a low Ranger realm have a bluish hue to them. But I can also see facial features and freckles and everything. I can tell you. I can tell you what part of the country from, everything you know. And then I also get messages about them at the same time of where they were and how they passed away and all that stuff. That's how you know the difference, because they talk about how they how they've passed away, and all those types of things. And them, although they know it's just a transition, but they're still holding on to it, because they're in the lower range of realm where they still have pain, anguish, argued, anguish, hatred, selfishness, drama, anxiety, depression, all that stuff. And when they start talking, you can, you can tell the difference, because the ones who are crossed over into the light, especially angels. They don't talk about that stuff. They don't they don't have it because where they are, it's a perfect place. But, yeah, when you do when you do it long enough, you just it, just because this is my life now for but for me, you know, I see so many spirits throughout my day. It's like standing in a room and it's like 1000 people.

45:00

People being in room, and nobody leaves, and more just keep coming in. It's like standing in a room, yeah, like at the mall, when the mall used to be busy and everyone else is talking around you, you just hear it all. They're they're talking to me or around me, and I just hear everything well. And you know, it's interesting that you bring that up, because, yes, theosophically, you know, an angel wouldn't have a soul in that kind of way. So whatever is the soul itself, whatever decision they made, whenever is the day, they don't have a chance to make that right in that kind of way. They don't they don't have a chance to go into the light, come back and redo it and learn a lesson later. No, there are. They're already done. Angels are already already done. And as I know angels, they're not men with wings and shields and swords, and they're not magical beings who are going to fix your life. Why would a guardian angel keep you from getting sick with cancer but not keep your dog from getting hit by a car? Because they don't do either. There is no such thing. I mean, if you had a guardian angel following you around, guarding you from everything in your life, what would you learn? Nothing. Yeah, yeah. No one has a guardian angel, but people, people, unfortunately, watch television or movies and believe that they have guardian angels all the time, or they they misconstrue having spirit guides and angels at the same time. They don't know. They're not exactly sure. Because I have people, I do this live show on tick tock every a couple nights a week, and and I talk about it, and they go, what do my angels have for me? And I always say to them, don't you think being an angel being the highest of high that we put the regard we put them in. If you had an angel, don't you think he'd be talking to you by now? How come? How come he has it? Oh, I never thought about that. Or they say, can you tell me about my guardian angel? I said, Why do you think you have a guard? Why do you think you have a guardian angel? But a child in a cancer hospital doesn't? Oh, I never thought of that, right? Because you're a selfish piece of crap. That's why. Because you think you need something, I tell them, you don't need an angel. Go get a cup of freaking coffee. You don't need an angel. Take 1000 selfies and post it on Facebook. You have, you have spirit guys in your soul, but you don't even listen to that. We get

messages every day from from our from our spirit guides in our soul. We get messages. People ask me, Can I get a message from God? You get messages every day from God. It's coming from God filtered down to what we call angels, but what Archangels call lesser angels, because they have less responsibility. And that information is provided to your spirit guides and then to you, for you to make choices in your life. You have free will, and you make a shitload of bad choices all day long, because you don't want to listen. Trust me, follow through. But well, in that brings up that huge point, a of free will. The fact of yes, no angel is going to keep you from your free will. They they know by by that kind of I guess, having give you a free Yeah, no, like they give you options, and they want you to make the correct option, but you use your free will to Yeah, whether or not you're going to, would they spend half a day digging a pit in front of you on the path that you're on? If it's the wrong one, sure, absolutely, they'll put forth some effort. However, it's still going down that road and follow down the one with the hurdles and pitfalls and everything else, because all life is going to have challenges. Life isn't meant to be easy. If it's meant to be easy, what would be a point of living if you were given everything in your lifetime, you would appreciate the things you do have. So we just can't see that well in our selfishness or ego drama and all that stuff gets in the middle. But the other reason we have that all is because we created it. Now in this is, this is no insult angels. This is just a quite honest with me, Chris, so you better make a good statement. I know, I know, I know I've got my ones around me, my friend. They are they are there all the time. And and I try to listen. I try to listen. I do my best to listen. And sometimes, Daniel, this is what I want to get into. Sometimes that message is not nice, sometimes that message is not kind, and goes to the point folks of sometimes, sometimes the answer that you were looking for in the prayer that you gave up may not be the answer you're looking for, like, the answer may firmly be No, and you just don't want to hear that Yes. Like,

49:08

like, like, when I see when I'm riding down the street on my on my motorcycle,

49:13

I see my guys with me. I see just spark a little lights around me all the time with my little pedals of smoke. And I'll say, Oh, I got to make this right hand turn. No. Oh, you don't want me to make this right hand turn. No.

49:26

Well, I'm going towards tombstone, because I live near tombstone. I can go down two more streets and I can make that other right hand turn, yes, okay, that's what I do. You know what's going to happen at the other turn? I don't care. I know they're always looking at the best for the best of me, but not everybody. I learned to listen, trust and follow through. My guys have told me eight years ago, if I do that, I would never get into another car accident again, and I have it so, but I want to there'll be a beautiful day outside, and I'll say, I don't think I would take a ride on my bike today. No, you don't want me. So can I go later today? No, no, you don't want me to go to all. No.

50:00

Yeah, and I just go, Okay, I'll go do something else. Not everybody can do that. Not everybody wants to do that. They want to do what they want to do when they want to do it. So that's where the ego and the selfishness comes in. But you, you were taught that you didn't have that as a baby, and now you do because you got you learned it throughout life, but Yeah, but you're going, sometimes you're going to hear some answers you don't want to hear, because I get when I do readings for people, I give people answers all the time they don't want to hear, but it's still the truth, yeah, whether they like it or not. Now, if an answer does come in and it's telling you to do something nefarious that's not coming from an angels, angels don't do that. There is no fallen angels. There are only negative energies, and these negative energies are around us just as much as positive ones are, and they are trying to influence us as much as they can, to do these horrible things, not to really cause us harm so much, even though we do cause harm from it, but sure to do horrible things. Why? Because in the low energy realm, these negative energies, if they can't get enough energy from the beings that are there, they will come into this realm and talk us into doing things, or tell us things and horrible things and figures to be scared and put out fear, and then they will collect that energy from us. They are energy vampires. That's why they do it, yeah? Well, it's just like, they're not gonna make your head spin around and spit out peace troop, yeah, yeah, they can't do that. But that's not real. And it's just like Master Yoda said, you know, it's the fact of No, the dark side isn't more powerful. It's just easier. Yes, it's easier because so we, by nature, choose, the temptation of it is much more alluding to us. You know, we're like, oh, yeah, I want to do that. Yeah, yeah, yeah. And that's just it. And it's a, it's a hard decision, and it's idea whether folks, whether you, whether you were a Wednesday, Sunday church goer, or whether you're a no Sunday church goer, believe me, this is, this is message that is fully life changing, because it's the idea that you have to learn eventually that a you, you are a cog in a cosmic machine that correct is beyond comprehension, and a without that cog, the machine don't work, right? So don't forget that like we're all cog in the universe, part of it. But just to tell you, if you want to go out and find some negative energy, go to a church, because everybody is trying to prove so you got prove to the other person I'm a better Christian than you are. So, I mean, go ahead. Yeah, it's beer. Tell me that

52:29

it took me years of working in churches to find out some of that. Yeah, yeah,

52:37

Daniel, but, but in all sincerity, it's the fact of all too often. And I say this, whether you're talking esoteric manifestation in the world, whether, whether you're talking, you know, answers to prayer and prayer circles, things like that, it's the fact of, you have to learn to surrender. And you have to learn to surrender to the process and understand the fact that's what I had to do, wow, wield ultimate control over all of this. Yeah, I gave them every I gave them everything that I am and and surrendered everything of myself over to them to be able to to receive the messages. But I at that very beginning point, I didn't understand everything else that was going to come along with it. And I mean, again, I've seen spirit my entire life, but now I see so many, and I see so much that for some people, if you were not me able, being able to handle it, you would end up in a psych ward, because that's the type of things that I see in here well, and that that brings up a huge point, which is, which is the idea of

53:51

wanting that connection, seeking that connection. I think a lot of people, especially now in this world, are seeking connection in that yeah, they talk about wanting my gift all the time, but when I once I explain some of the stuff that goes on with me, then they quickly retract that statement. They they only want the cool part, Chris. They only want this being able to get some answers. Because they think if they can get some answers, they can now go win the lottery or something like that, or take it over to the craps tables or something like that. But that's not what it's for. Yeah, they just can't seem to that's why. That's why most people, as I explain it, you know that the ability to have this does not it's not a gift that you wake up and then God goes, Okay, you know, you have this good okay. It doesn't work that way. It comes through with your soul during the creation of your soul. When God creates the soul, he puts that in, and then you are this every single time you you come into the world, but sometimes you wake up to it, and sometimes you don't, but, but, and it's not generational. You don't get it from your grandparent because they were, they had this ability or something like that, and, and, but you get it because you're meant to do something big with it, and you're meant to try to change this world, and not just do it so you can make a bunch of money and write a freaking BMW all day long.

55:00

Long. It's not about that, but they but they do understand, even when I do this, they say, you do have to charge money for this. Daniel, because they know I don't like to, I don't like to charge a lot of money for this. I'm probably one of the cheapest mediums that people know, because I want everyone to have the ability to receive messages from from me, if they're meant to get it through me. Because we're not all meant to give messages to everyone. That's why there's a lot of us around. But because I believe there is no competition. I mean, we're just, if you're coming to me to get an answer because you feel compelled to come to me, or you're drawn to me to get that, and I'm here to help you. But I want it to be a to be available, but it does take time out of my day. I have to prepare myself. I mean, I just, I'm not sitting around doing this, Chris, I'm not going home, because that's a bunch of bullshit. Just not I'm actually just sitting there getting myself dressed and get myself prepared, and then i i usually do them on on Zoom, or I do a live show up in Tucson, Arizona, and I go there and do media readings for people and stuff like that. But that does take time out of my day. That does take energy out of me as well. And I get very tired. I mean, I mean, I remember one show I went to, I did 21 readings in a row, so I was, I was exhausted by the time I got home. So, yeah, but, but again, I don't charge that much because I want everybody to be able to get a reading without feeling like I'm trying to get into their pocket. Because unfortunately, there are a lot of people. I just did a video called The unintuitive about these people who go out there and scam the hell out of everybody, who are just basically snake oil salesmen and stuff like that and and trying to get all they're trying to do is tell you 15 programs. How do you to get into your your own spirituality, of which your spirituality is within you. But you have to open yourself up to it and surrender yourself over to it to be able to receive it as I did so. But it

56:48

takes a lot of time. It's a lot of efforts, a lot of practice. And people don't want to do that. They want to they want to go to Staples and get an easy button and go, that was easy, no, and that's not going to work that way. You you can't use it. You can't use a bunch of crystals. You walk on a world that's completely covering crystals. How come they haven't already raised our vibration? Because they don't, I mean, you, I mean, if they were, how come it takes you buying one for it to work? You know, it doesn't make sense. You know, you can't use a bunch of sage, because you burn some sage, you're gonna, you're gonna not, you're not gonna make smoke from a physical item. Here, it's transposed into a non physical realm and an effect of being that doesn't have physical lungs and doesn't smell and doesn't breathe. So the only thing you're actually doing at that point is setting off your fire alarms. You're not going to use a Bible, because the Bible has so much power and control and other horrible things and where it says, Yeah, God says it's okay to go to war. No, he doesn't. So you're not going to use that against it. You're not going to use a crucifix, because a crucifix is a form of punishment. How you going to make something negative go away with a crucifix, that's a form of punishment. You're not going to do it so. But So with these, lot of these fake people, fake practitioners out there trying to sell you everything they can out there to get you to your own spirituality, when all you got to do is surrender yourself, up to get it. Yeah, you can do that on your own, absolutely. And I will say this holding a crystal in my hand,

58:11

I want you to poke me in the eye with that. This is my friend. I'm surrounded by Crystal friends, Daniel, but this one's in my hand most of the time while I'm talking. That's got a nice point to it that might help me out with them, constipated or something. For me, it's the fact of,

58:26

it's not necessarily the crystal. The crystal is a medium. It's it's a medium. It is my intent, right? It's my intent. This is a reminder of my intent. Yes, then as long as you have the intent, you're going to succeed with it, but you have to learn to listen, trust and follow through with others what's being told you, and that's what I mean by surrendering to myself over learning to listen, trust and follow through with everything they told me to listen to it, trust where it's coming from, because you have to have discernment of where it's coming from. Knowing that the information is being provided to you is good. When you hear that horrible stuff. You just tell it to walk away. It's all you really have to do, as long as you don't let it bring fear to your heart, you're pretty much okay. And then follow through with the information. But you have to follow through with every single time. And I follow through with it every single time, even to the point where I'll, in the morning, I'm diabetic, I have to take medication. I'll just say, this is a pill bottle. I'll pick it up and I'll just look at it. They'll touch me on my face. No, you know what I do.

59:22

I put it down.

59:25

I follow everything they told me to do. We could all do that. Is there ever? Is there ever a day where they totally tell you not to take your medication? Daniel, yes, okay, there's been days, yes, okay, yeah, because my medication does affect me in ways where, especially being a diabetic, it affects me in ways where I get my system becomes very sluggish, and they'll tell me not to take it for a couple days, and because I get backed up not to I'll do what they tell me to do. And they say, No, I'm back in the bathroom. I'm fine. And then I go back to it. There you go. They tell me everything. They look out for my best.

1:00:00

Interests. They look out for all of our best interests. But we have to learn to listen, trust and follow through and and that takes a lot of time and practice and effort, and you have to be able to relinquish your the power of yourself over to them so that they can guide you all the time. Yeah, because people don't want to do that. And once again, that that discernment to know the difference between good entity, bad entity, good energy, bad energy. What is? Yeah, what is you down different paths. There's the sight part of that too, as well. Like when I talked about archangels and what they what they don't look like, I've seen, I've seen in the low energy realm, all kinds of things. And there, I'm telling you, there's no one guy who's in charge of everything. There's not one guy in charge that they call the devil. There's a Lucifer. He's not Satan. He's not the devil or anything like he's just an archangel, not a fallen Archangel. There is no such thing as fallen archangels, but there are negative energies. But I've seen some things there. I mean, there's no one guy walking around with horns and a tail telling everybody here's what you need to do every day, although there might be a guy walking around with a horns and a tail, but that's because that's what he looks like, where he comes from. That's it. And I've seen some horrible looking beings

1:01:11

that are come up to me and, Hey, Daniel, how are you? And they're the kindest, just the kindest soul ever. And I just and, but we, you know, we have that whole saying here, you know, I can't judge a book by a cover, and that's absolutely in spirit as well. But even even that, when I saw that one woman come up in front of me and that other lady standing in front of me, the first thing that came out of her mind is I knew when, because what she looked like, because of the the appearance of that, that blue hue, I knew she's in the lower Jerome. She said, My Life here is like a prison sentence. And then there was a girl standing next to her laughing her butt off, laughing at her. And then she said, again, my life here is like a prison sentence. I knew she was in lower Jerome, and I said to her, you can cross over anytime you want to. And then I told her how to do that. And then she went. The other one stayed because you didn't want to go.

1:02:02

Now for all discernment in the last couple minutes here, Daniel, for all those out there who are struggling with these issues, who are struggling with

1:02:13

that, that moment of trust, yes, with, with what seems like the insurmountable leap to trust. Well, I had someone leaped forward for me

1:02:26

so that I would be able to trust I was so in the very beginning, I was working with a group of mediums. I found this woman who was doing an intuition class, because I I went out and got, tried to get a paranormal group to come in my house. I had one come to my group my house. They got so much information. I mean, they showed up their little van in insignia. And I just thought, I want to be this kind of the famous my neighborhood. Because, you know, people go to think I have a poltergeist, although they did.

1:02:54

But

1:02:56

everybody in this neighborhood does too. They still know so, but I don't know. I have a truck outside. It's a Jeep Gladiator, and the side of my jeep says Lucifer. So people think I'm the Satanist,

1:03:09

but, but

1:03:12

I had them come to the house, and then they did. They got so much information. Hey, that's character crap out. And they never came back. They quit on my front lawn, because they got so much stuff that happened there. And the best part about that was my wife and I had these people in the House who are witnessing everything that we've been going through, and that was a good thing for us, but, but, yeah, so, so when I found this other woman, she had a paranormal group too, but it was I'd already gone through that experience. And she said, Look, I have an intuition group. I think you should come. I think this will help you out. I said. I said, Great. And I went and then, but I thought everybody there, I was so green to this, Chris, I didn't know what. So I thought everybody there was like me. So I said, so they said, tell your tell something about yourself. Daniel, and I went into everything. I got all these skulls coming through my room and all this. And I was like, and everybody in the room sitting there

1:04:03

like this. And I was like,

1:04:06

So has anybody else got this going on? And she said, the leader of the class, she said, No, Daniel, you're different. You're I'm well, I need to talk to you after the class anyway. But, and one of the girls who was in the in the class, she was going to be in this group of medium so but, and then one, I'm so green, one of the girls in the group, she said, if you're experiencing so much of this stuff, maybe you should try Reiki. And I looked at her, and I said, What

1:04:35

are you talking about? I don't like yard work.

1:04:39

And my wife smacks me. And so I was like, what she's like, Reiki is a form of moving energy. I said, Oh, I don't know what that is, but I still don't like yard work,

1:04:49

so. But after the class this lady, she says, Hey, I need you to come to this group. I'm putting a group together. It's all professional mediums. And this one girl worked over her name is Siobhan. She said, I'm going to do this too.

1:05:00

I was like, Oh, great. And we're going to help you get this figured out, because you have a lot going on. And I was like, I said, and at that point, I was like, I was I was crying. I said, I don't know what I'm doing. I don't know why this is going on so much. I'm just, I'm just trying to get this all figured out. And I don't know what's going on here on and because, because one of the one of the mediums I saw told me everything about me, and she said, Daniel is just a medium untrained. I said, I don't know what you're talking about, you know? So, so I go to this group, and every time I go to the group, I'm pouring out my soul and telling them what's going on each each time I'm there. And they're telling me what's, what this is, and what that is, and they make a lot of sense for things. And then one time, right before a meeting, a voice come through because I was in a closet. One time getting ready for work, when I was in the closet, a voice came through, just a voice from wherever, and it said, Hello, Daniel. And I was like,

1:06:01

Hello. Who am I speaking to? He says, I your man. He said, I'm Manos, your brother. He said, although you are just like him, you cannot perform miracles, but you do wear the crown of thorns. And I was like, Who are you talking about? He said, Jesus. Jesus Christ, your brother. I was like, my brother. He said, Yes, Daniel, he's your brother. As I as I am your brother. He said we were here to help you so. And I was like, Okay. And then one time he came through, he said, I want you to sit with Siobhan, ask her if it's okay to have permission. Clear out your minds, hold out your hands, and then let her touch her hands, and then watch. And I said, Watch what he said, Just watch. And I was like, okay, so I did that. And when I asked her, I said, hey, they want me to do this thing. And she's like, Yeah, okay. And then one of the other girls in the room said, Are you getting ready to channel? And I'm like, I don't know what I'm doing here. I'm just doing whatever the heck they're telling me to do. So they all run in the room, and then when we do the clearing out, and then she holds my hand, she does this. And I was like, are you okay? And she's like, Oh my God, it's the most energy I've ever felt my life. And as she starts telling me things about

1:07:09

I see your guides in front of you, Manos and Helen. I said, yeah, yeah. I see them every night. And she said, Oh my God, he's as big as a mountain. So

1:07:17

I keep doing this throughout the room with each different person, each different night I go there as well as usually once or twice a month, and and because they tell me, this is who we want you to do it with. And so I go in and I tell them, and everybody, every time I show up, everyone's now expecting, okay, who's going to be with this time? So and then so I do it with this one woman,

1:07:38

and we said, okay, so we do the thing and for everyone standing around. And then I held out my hands. She grabs my hands, gets shocked like electricity. And then the voice comes through and says, Hello, my son.

1:07:53

And I was like,

1:07:55

now I'm getting goosebumps.

1:07:58

The voice came through,

1:08:01

and I said, Who am I speaking with? And he says, it is I your father, God, he said, but I prefer father, because you use that word God too many times that have nothing to do with me, humanity. And I was like, so when he said that I was my skin was on fire, and I was like,

1:08:20

I was like, and I'm looking around the room, and everybody's going and their hair was sticking straight out, and goosebumps are happening. And he said, Don't worry, that'll go away soon.

1:08:32

And I was a and then it went away. And he said, Daniel, you need to learn to trust yourself. You're having a problem with that. You need to learn to trust yourself. Stop asking why? And I said, Oh, you heard that? He said, I hear everything. I'm your father.

1:08:49

So I said, Yeah, I'm having a problem trust him. I just I keep asking why me? He said, because it just is. Now move on. And I was like,

1:09:01

Okay. I mean,

1:09:04

if it just is, it just is. He said, Yes. Now move on. I said, Okay. He said, You're going to be working with my children. You refer to them as Archangels.

1:09:15

Now, whenever I introduce myself, I always tell people I work with, I work with, who refer to us archangels, because that's the way God said it to me. Because they're not their names arcane. The names that we provide them are just names of you know, you're you're Chris, I'm Daniel. That's how we know each other. And these are the names we give them. That's not their real names, because we can't pronounce their real names, because they we have a voice box we can't pronounce. That's more of a sound vibrational thing that comes through that that's their name. But these are the names that we provide them. And he said, you'll be working with my children. It's a process, but you have to go through the process in order for this to work. And I said, Okay. He said, But if you don't want to, it's up to you, you make a choice, and then we will move on. And I said,

1:09:57

No, I just feel like this is what I'm meant to do. And.

1:10:00

I will, I will do it. He said, I know you will just like that. And I was like, Oh, okay. He said, the process will begin immediately. He said, Just be prepared. And I was like, How do I prepare? He said, You'll figure it out real quick. I mean, very and then he's and then, but during the process, when he told me about trusting myself, he said, you have to move forward, he said. And then he said this, you need to shit or get off the pot. And I said, What did you say? And he said, You heard me. And I said, my mom used to say that. And he said, Where do you think she got it from? Right? And I was like, Oh, man. And then he said, Daniel, we love a good joke. And I was like, and then he started laughing. I was like, so you're kidding? He said, Yes, I'm kidding. Let's move on. And then that, that quick cut dry now, the process of working with Archangels. Yeah, so I would see them every night. I see them laying in bed, and that these bluish white lights coming out of the floor, and that's all I saw. If I turned my head to move to look and see what it would disappear. Since I turned my head front again, I'd see it out of my peripherals, but it was very bright and very vibrant.

1:11:08

And then from that point after when he said I was going to be working with them, then I saw something different. And now I see them as I see them now,

1:11:18

and I see eight foot pray man is standing in front of me. Some of them look like birds. Some look like some look like people. Some are not. Most of them aren't. Some of them look like other things I just can't describe so but they look like eight foot pray. Man is standing around me, and I always see a circle of them completely surrounding me the whole time. Sometimes at night, I will see another group of them over top of the circle. And I call that the board meeting. They're deciding what they're going to do to me next in order for me to progress where I am. So I'm laying there in bed, and then I see these arms and tentacles coming down, and I feel little cold touches all over my entire body, legs, feet everywhere,

1:11:57

and then all over my head, and then, and then I'll be laying there, and then I would eventually, because of it, whatever they're doing to me, they're working on my soul.

1:12:07

I fall asleep, and then I wake up two or three hours later, and I'm throwing up and crapping everywhere for two or three hours because the energy from the from archangels, is so strong. This is what happens to the human body. We can't we can't process it well enough, so they have to work on my soul and to be able to purge my body so I can process the information and receive it daily, every day, all day. Never

1:12:32

turns off everything and then so that would happen to me twice a month, and that went on for three years. So when I say, like I said earlier, when you speak to anyone who says they have an angelic presence with them, most people don't even know what an angelic presence is, because they're not, they're not just these beautiful way. They're not going to appear in front of you, because if they did, you'd throw up and crap yourself. You would, yeah, she's strong. It's different even it's a different kind of energy, even when you read biblical accounts, things like that,

1:13:04

terror was normally struck, like, to the to the point that the angel has to inform people, like, Don't be afraid. It's all good, right, right, yeah, oh yeah, absolutely, because of, because it was because, because, again, the what they look like when I when you see an eight foot pray man is standing in front of you. I mean, you see, and I see their big bug eyes, and their eyes are posing. They actually blink their eyes, but they blink very slow, and they open back up again, very slow, and open back up again. But, yeah, when they're blinking their eyes and moving their arms around and tentacles and all that stuff. I mean, you see that standing in front of you like, holy shit, you know? Because this thing cut, you know? And I know some people say, Oh, they all have millions of eyes. I've only seen one that has that, and that's a and that's

1:13:47

Gabriel, so, but,

1:13:51

but, yeah, so when I said there's a process to it, that's the process I'm talking about. So anytime you ever hear anybody who says, I work with archangels, I work with angels and stuff like that. Well, here's the thing, archangels don't even call angels angels. They call them lesser angels because they have less responsibility. It's God archangels, what Archangels would refer to as lesser angels, less responsibility. And then you have spirit guides, regular spirit us, because we have a soul inside of us, and the Spirit who are just in the low energy realm, there's no you know,

1:14:21

what do they call themselves? The Council of light. That's so much frickin bull crap. These are the things that people make up. There's no spiritual there's no Ascended Masters, because they don't see themselves as being any better than anyone else you you, if you actually get to go home and stay into heaven, you're going to see angels walking around. They don't they don't look at you like I'm better than you are because I'm a master. No, they don't. That's a bunch of made up, made up crap. So all that stuff, hog wash. It's just, it's all about coming down to one thing, responsibility. What your the responsibility of you is, you know, you're going to get messages coming from your spirit guides that are coming from angels, lesser angels, coming from God. But it's all.

1:15:00

Filter down to to give to you for your life. You know, if you are meant for, meant for something more, you will get more information so

1:15:10

but, yeah, anyone you ever come across who says, I work with Archangels? First thing I want you to ask them is, what's the process? If they don't tell you what I just told you, they're not doing it because their soul has to be worked on to be able to receive that energy their body has to be worked on to be able to receive and feel and get that energy that's being brought to them. So it doesn't when they get touched on the face, they don't get knocked on their ass, because that's what it would do them. Yeah. So if there's a lot of them out there, unfortunately, who are faking, who just they want your attention, and this is how they charge four or 500 bucks an hour. They just do because I work with archangels, and I'm doing this, Archangel Michael doesn't look like a man. He looks like a like a cost cross breed of a moose and a horse. He's got this wider, thicker head, with these two eyes that look like Wolf eyes and or I can see all those little fine hairs, and they're like a brownish red eyes. And he's got these big, floppy ears. He doesn't have any antlers, but he's got this long body. It looks like a it looks like a horse with short hair on it. That's what he looks like when they start telling you, Oh, they got wings, Chris, there's no wind beneath their wings in order for them to fly. So why would they be flying? Why would they need wings? They don't.

1:16:16

They don't have wings. Angels don't have wings. No one passes away and gets their wings. You just tell Yeah, because no one actually goes to a higher consciousness. We as a people have to do it together, not just one individual. So that's why, again, that's why there's no Ascended Masters and all this other crap. This is the spiritual community wanting you to believe in a bunch of things that you will never be able to achieve for yourself, doing the same thing that religion does. You know that people who want to tell you how to live your life, the way they want to live it, while giving them 10% that always have power and control over them, that we are the ones who are the chosen ones, and you're never going to reach anything. You know how, like religion tells you that you're no matter, no matter what religion does, I don't care how many times they they you go and confess your sins, or how many times you've been baptized, or how many times you you eat that piece of bread, or, you know, or drink that cultish blood? You know, because somebody's standing in front of me saying that they're drinking the blood of Jesus Christ, sounds like a cult to me. I don't know about you, but, but if the only reason they do all that stuff is because they want you to know that they are better than you are. So, I mean, no matter what religion does in that aspect of it, you're always still going to be a sinner.

1:17:25

You're never going to accomplish anything in their eyes. So, but this is what the spiritual community wants you to believe, too. As Have you worked towards a bunch of things that you'll never reach, because only they are the ones who can reach it? Well, that's not the truth. Now, not everybody can be a medium, because, again, that that is provided to you during the creation of your soul. But you can get in touch with your soul. You can learn to listen, trust and follow through with what your spirit guides and your soul are telling you every single day. And we just need to know that. But what we have to also do is stop hating on each other and segregating ourselves from each other and all the day all the time. But that's brought on to us by society and our government, unfortunately, but, but, yeah, the the power is out there, but you have to learn to take the power back and bring it back to yourself, and stop relinquishing it over to everyone else, stop outsourcing everything you have to someone else, when you can do it yourself. But it does take time and practice. That's all you know. It's interesting

1:18:19

on the way out here. One of the one of the concepts that I have flipped on its head over the last many years

1:18:27

is the whole concept of taking the Lord's name in vain. Now that's not his real name.

1:18:33

Grasp this, because God isn't his real name. The whole concept that I come at with it from is, is the idea that, if you go back into Jewish Kabbalistic tradition, the idea that you know we we, because we were breathed into uniquely amongst all creation, have that creative spirit. That means by which to create and manifest in the world, right? That that means that we independently have the means by which to solve most of our problems day, right? So in those meager times, in those those menial times when you think that like only God can help you, you're actively the person who's supposed to help you. So yeah, all the answers are from within yourself,

1:19:22

down the retrieval? Yeah, that's when you're taking God's name in vain, when you're utterly asking him for the assistance and to move the universe for something that you yourself can solve,

1:19:34

or you yourself created at the same time. You know, we have all this crap going on in our lives, and it's in there. Oh, but I want an angel to come here and fix it for me. No, that you will get spirit guides who will provide you information, but they're not here to fix your life for you. They're helped to give you answers to so that you can fix your life yourself. That's right. You have to be a part of it, you know? But yeah, the whole in the Lord's name, I mean, yeah, again, he doesn't even like the word God, so because we use it too many times.

1:20:00

Have nothing to do with him. But even Jesus, his real name isn't Jesus Christ, because my name isn't really Daniel, because my soul name I can't pronounce. So you're not using anyone's name in vain. But that's how they have power control everybody well. And it's, it's like I used to tell my junior high and high school students, you could, you could pray to God, Vishnu, whoever you want, all day long, to pass geometry. You know what God wants for you, to study your geometry. Yes, that's the lesson. Is, study your geometry. Yeah, prayer is not forgiving, working for more than you're supposed to have. Prayers for giving thanks for what you do have. And that's what we're supposed to do. But yeah, I said this the other day in a little video I made, here you are. Here we are walking around, giving

1:20:46

complaining about everything, while you're complaining about something everyone else. There's a lot of people out there who are taking their last breath. So what we need to do is focus on what we have in this class and just be thankful for that. Sometimes, that's right, but we don't we want to complain about everything. Yeah, no, absolutely. Man, twice a day, twice a day, when you wake up and draw that first conscious breath, you say thank you, and you say thank you as as you give your last conscious breath, yeah. So every night, when I go to bed, I say, it's not a prayer. I'm just giving thanks for what they've what they have brought me throughout my day, absolutely thanking them for for me, having this ability to be able to help everyone else out there to understand what's really, truly going on. I mean, yeah. I mean not to scare anybody, but just to say that this way, because of what I see every single day within the spiritual realm, if you actually knew what was taking place around you every single day spiritually, you'd go hide in a freaking closet. Yeah, it wouldn't help you, because they're in the closet too. But if you learn to understand what's taking place, you wouldn't be so scared anymore. Yeah, yeah. And understanding your your part and part of placing that, yeah, yeah. We're all part of this. We're all we're all here together. There's, I mean, if we weren't meant to do this together, there wouldn't be 7.5 billion of us. It'd be right. That's right. We're not. We're here to do this together. We're always, we've always, all been in this together, but we got to learn to get that figured out. We got to, you know, as I, like I said earlier, we all live on the same planet. No one's going anywhere anytime soon, so we better start to get along with each other before we annihilator each other. Now we could go the other places, but, you know, there are people who have all that technology are never going to give it to us. So we have to learn how to figure out the more important things in this world, which is our spirituality, knowing that we're all here together to take care of each other and share everything in the world, because there's enough of everything in the world to share, and then just look out for each other. So that way, we could still go to work, but we'd be going to work to do things in a way where we're doing it for all the good of humanity and not doing it for a profit. That's right, that's all. Yeah, we could do it, but we just have to make that we have to make that change, and government's never going to do that for us. So we have to do that for ourselves. Yeah, exactly. Daniel, thank you so much for your time, as always, for the candid, open, beautiful conversation before we let you go. Let everybody know where they can go to get a hold of you, where they can go to get their spiritual reading from you, where they can go to purchase their copy of the new beginning.

1:23:10

Sure you if you're looking to get a reading with me, I have different kinds of readings, one more, if you're just getting a reading from me, Sure absolutely. Or some people just like to have a reading with where they want to talk about spirituality and spirit altogether, all the things that I've seen, you can go on spirit medium Daniel calm, and you can book a reading. You can absolutely get a reading there for, like I said, to different kinds. Or there's some people who actually come to me who feel as though there's something else going on. And usually when I see their name, I already know that they have an ability, and then I will tell them where to go and what to do with that ability and how to move forward with it. I myself am not somebody who is a mentor for other people, but I can direct you to other people who I know, who are, who are good mentors, and I only have a couple of them because I know which ones are real and which ones are just not. So you can find everything you need to know right there about me on spirit medium Daniel calm as well as
